

## CIRCULAR IIT FOUNDATION PROGRAM

Ref: JHPS/PAR/CIR/04/2023-24

Date: 23.03.2023

Dear Parents,

### **Subject: After School coaching classes for IIT-Foundation**

Jubilee Hills Public School in association with T.I.M.E. Institute will be providing the IIT Foundation training program for the students of classes 8th, 9th & 10th for the upcoming academic year (AY 2023-24). This program has been planned to bring in a more competitive edge to the students which will help them in their higher education. Kindly go through the following information about the training program and express your consent.

JHPS is fully committed to provide the best facilities to the students enabling a conducive environment for the preparation of these competitive examinations. This collaboration will save the transition time of the students willing to prepare for the examination. We will be offering:

- Model Classrooms with Interactive Board
- Transport Facilities
- Library Facilities
- Personalised Career Guidance

### **IIT Foundation Training Program:**

- Designed to enable the Students of Classes 8, 9 & 10 to develop strong fundamentals in Mathematics, Physics & Chemistry.
- Focus on building application, analytical and problem solving skills.
- The course also includes classes on Biology (Online recorded mode).
- The training module empowers the students to face competitive exams at the school level as well as those in the future, with confidence and ease.

### **The Training Methodology and the structure of classes:**

**Conceptual Training:** In this module, the focus is on building an in-depth understanding of the concepts in an interesting way with a lot of solved examples. The training is done through the assistance of Study Material provided for each subject.

**Skill-BUILDER Exercise:** At the end of each topic, there are exercises to improve the cognitive abilities of a student at different levels. Initially Interactive and Knowledge Based Questions will help in consolidating the student's ability to recall the facts about

principles. Subsequently Understanding Based Questions help in improving the comprehension skills, followed by Application Based Questions that stimulate their thinking and improve their ability in applying the concepts to real life situations. In addition, a collection of Questions is designed to develop the *Advanced Logical Thinking and Analytical Skills* (ALTAS) in a student.

**Testing Module:** Tests consisting of objective-type questions are conducted after completion of the topic(s) to validate the learning of a student.
