The school plays a vital role in the life of the young students learning to blend knowledge, wisdom and integrity to their years at school. A school that imparts both knowledge and wisdom to its students will succeed in empowering them holistically for a bright future.

It gives us immense pleasure in bringing out the 'Silver Jubilee' edition of the magazine successfully. Extracting talents, ideas, skills from different fields was a difficult task, but we finally made it possible. The Magazine which had begun as a 'souvenir' the 'ASCENT' has emerged into a colourful book of events happening round the year.

On completion of 25 years of successful published editions, what comes to our mind is that "Success comes to those who work hard and stays with those, who don't rest on the laurels of the past".

The SILVER JUBILEE edition of the school Magazine –'ASCENT' is a milestone that marks our growth, unfolds our imagination and gives life to our thoughts and aspirations. It unleashes a wide spectrum of creative skills ranging from writing to editing. The Magazine captures the incredible moments in the history of JHPS. We have tried our best to make sure this memoir of jhps, helps in reminiscing the eventful journey of the Magazine. The issue might be termed as a memoir of all our previous 'ASCENT' Magazines.

It's rightly said, "A flower makes no garland", similarly this magazine is not the outcome of the effort put in by an individual, but is the immense effort put forward by all the members of the editorial team, the teachers and our dear JHPians. We would like to express our heartfelt gratitude to the Management and Principal for their constant support and encouragement.

We also thank the student editorial board for their whole hearted contribution for the success of the twenty fifth edition of 'ASCENT'. We hope all readers will cherish our efforts.

Happy Nostalgia! Enjoy Reading!

Student Editorial Message

This issue of the magazine celebrates twenty five years of its inception. This twenty-fifth year, we the student editors of the Ascent magazine decided to work on a theme that would encompass the memories of twenty five years of excellence into one book to remember forever.

This is why we chose the theme 'Footprints -Memories and Reflections'. We have focused on those who have made a difference in this world, changed the way people saw and did things. We filled the magazine with the students' reflections of their past in the school and the magazine's journey through the years.

We spent days discussing, brainstorming and planning how we should begin the making of this year's magazine and finally after lots of help and guidance from the teachers, the magazine began to gain structure. We spent hours conducting interviews and learned a great deal about everyone.

This is a magazine in which the JHPians treasure their memories to rekindle them when they grow older and smile with happiness.

We sincerely hope you enjoy every page of this magazine. We thank our school for giving us the opportunity to be a part of the Student Editorial Board.

Enjoy Reading!

MESSAGE

It gives me immense pleasure to know that the Jubilee Hills Public School is bringing out the 'SILVER JUBILEE' issue of the Annual Magazine 'Ascent' for the academic year 2014-2015. I appreciate the school's excellent efforts in providing holistic education to children and helping each student to meet life's challenges with knowledge supported by wisdom, moral values, good decision making skills, as well as equipoise and respect for all life.

I am glad to know that the school focuses on the all round development of the child with special emphasis on value based holistic education. It's contribution to the society is commendable and can be seen in the quality of the students and their performance in all spheres. The school has left no stone unturned in providing new-age technological and infrastructural facilities for the students and teachers.

My best wishes on this occasion to the Management, staff and students in achieving their goals.

MESSAGE

My profound wishes to Jubilee Hills Public School on the occasion of its bringing out the Silver Jubilee issue of the Annual Magazine.

The name of the magazine is contrary to what the school can do, as ascent means going up. My experience with the school says that it has reached the highest heights already leaving no greater height to which it can ascend. I would only wish that the school keeps up the standards that it has grown up to.

MESSAGE

Dear Students, Educators and Parents,

This is the 25th Anniversary of the School Magazine Ascent . I would like to extend my congratulations to all the current and past editorial staff and administrators for continuously improving the school magazine Ascent and having made it something that all of us eagerly wait for every year.

The subject of this year's school magazine is Footprints and Memories. I find the following quote to be apt.

"Everyone leaves footprints in your memory, but the ones that leave footprints in your heart, are the ones you will truly remember"

- Nicholas Sperling

I hope during your stay at Jubilee Hills Public School, that you have learned from and been associated with a few teachers and friends who will leave footprints in your heart and that you have left your footprints in the hearts of a few others.

I wish you all a long and prosperous life of continuous learning.

Thank you,

KODE SATYANARAYANA

President

MESSAGE

*“ When you do more than you learn, you leave a distinctive
notable footprint on earth ”*

– Ernest Agyemang Yeboah

It gives me great pleasure to be a part of this Silver Jubilee issue. The school as an institution and I as an individual have collected lots of memories during this 25 year period. Memories form an important part of a human being in the long journey of life on this earth. Recollection from the past of a person's good times and bad times has an effect on the present moods and actions. The achievement and failures in one's life are reflected in the memories of a person. The achievements give a strong sense of satisfaction and a person is happy that he has left a footprint of his own on this earth. The failures at the same time must have given the person an experience which will act as useful lessons while facing the future.

In everyone's life, the memories of the school life with friends & teachers have a deep impact and cherished moments are permanently stored. One always looks forward to meet school friends or meet the teachers who have given them the best of the memories. I advise our children to have a very good school life and take from here wonderful memories and leave nothing but footprints.

A. MURALI MUKUND

Chairman
Jubilee Hills Public School

MESSAGE

No matter who you are, what you do, how old you get, your memories from school will always remain one of your most prized possessions.

We're sure you remember your days at school - the times when teachers helped you to identify your inner talent and guided you in the right direction; the times when you read books in the library; the times when you were using technology in the computer labs; the times when you were eagerly waiting for your physical education period; the times when your best friend 'helped' you learn the answers and all you had to do in return was buy an ice cream; the times when you and your friends sat on the last bench and ate your tiffin; the most wonderful memories from the best time of your life.

You'll be reminded of the time when you and your friends signed each other's uniforms, took strolls in the hallowed corridors of your alma mater, took one last ride on the merry-go-round and even sat in those old classrooms to discuss the days gone by...

You might want to dust those scrapbooks and check out all those class photographs again. And remember - School khatam hua hai... dosti nahin.

"One's options in this world are as vast as the horizon, which is technically a circle and thus infinitely broad. Yet we must choose each step we take with utmost caution, for the footprints we leave behind are as important as the path we will follow. They're part of the same journey."

I would like to thank the entire editorial team for their hard work and dedication in bringing out the SILVER JUBILEE issue of the school magazine.

MESSAGE

*“I think that’s what we all want, in the end.
To know that we left footprints when we passed by, however briefly.
We want to be remembered. To remember us.”*

In our Silver Jubilee Edition of Ascent Magazine we look back at the past 25 years that have been, and see the milestones ascended. Ascent has come a long way from its incubation to the present stage of being a grandiose magazine. Similarly the School has passed from the pupa stage to give wings to its students to fly off into the world like a butterfly. It is with pride that we say that Jubilee Hills Public School has left its footprints in the Sands of Educational History with a galore of Awards endorsing its greatness.

Students come and go; Teachers come and go but the values and learning imbibed from the School will be imprinted in your lives like footprints reminding you, guiding you and helping you lead memorable lives. These footprints will not only lead you forward but as you turn back and look; remind you of how far you have come; who has helped you and how much farther you need to travel. Remember your school and see to it that you leave your foot prints behind in the school to be narrated fondly by your teachers and to be adorably looked back by you.

We know that these 25 years of Ascent, reporting and showcasing the School’s milestones have been great for the editorial team and the school with the promise of greater things to come.

Ms. G. Sree Devi is the Academic Director of our school. She is warm and focused. Her goal is making JHPS the best school in the country. She believes this will be possible only through teacher improvement and empowerment. Here are some bytes from an interview with her.

TÊTE-À-TÊTE WITH THE ACADEMIC DIRECTOR

I believe that discipline, perseverance and dedication are the most important values that a student must have

Q) Which one accomplishment are you the most proud of? Why?

Being the Academic Director of this school is a proud achievement for me. To be able to guide the teachers and students in their endeavour for pursuing the best in education is gratifying.

Q) Can you cite any challenge you had and how did you overcome it?

Challenges can be so many. But speaking of it, one incident really put me up to the test. Two years back, CBSE introduced many changes in the existing curriculum like PSA, ASL, OTBA and the secondary school was under pressure. Fortunately, we were able to overcome the problem with special classes, mock tests for students and training sessions for teachers.

Q) What three main attributes or skills do you think are most important for a student?

I believe that discipline, perseverance and dedication are the most important values that a student must have.

Q) Can you share any childhood experience of yours which can inspire or motivate students?

Well, I grew up in Nagaland, where life was all about being happy. The atmosphere there influenced my views on success. Victory unwraps only when you let yourselves work hard but do it cheerfully.

Q) What message would you like to give to the present generation?

Gadgets are not everything. Rather, crystallize your interpersonal relations with harmony and contentment, because they remain with you as long as you live.

United we stand

Divided we fall

The students are divided into Four houses – Cauvery, Ganga, Godavari and Krishna. The house system inculcates in the students the values of team spirit, commitment, loyalty, sharing and healthy competition.

CAUVERY HOUSE

Motto - 'Even more and better ever'

Green is the colour of balance, harmony and growth. Cauvery house has always been very motivated and inspired. All students work hard and support each other in the pursuit of learning. Students have upheld the selfless spirit of participation inspite of ups and downs. The house captains and members were dedicated, supportive and worked as a team. Cauvery House will reach greater heights with dedication and hard work.

GANGA HOUSE

Motto - 'Never give up, for that is just the place and time that the tide will turn.'

Aiming high and achieving dreams –With this thought in mind, we worked hard and managed to secure the second position in sports. This was made possible only because of the House wardens, House teachers and the students. Our journey in the year 2014-15 was marked with highs and lows but we feel proud that we have given a tough competition to the other houses. All the members of the house learned the spirit of being together and working hard which has contributed towards our achievements. Though we gave this year our best and worked hard we feel our best is yet to come as the power of the Gangites will make the flag of Ganga House flutter with pride.

GODAVARI HOUSE

Motto - 'Be sincere and work hard, success follows'

"Coming together is Beginning,

Keeping together is Progress,

Working Together is Success."

Be sincere and work hard, success follows. Keeping this in mind, we shouldered the responsibilities given to us. The traits of all the students of our house are in perfect blend with each other and that has helped Godavari House to win. We made use of the various competitions to exhibit our talent and also were highly successful. All this was possible only because of the commitment, sincerity and enthusiasm shown by each and every member of our house. We thank all of them for their valuable contributions to the house.

KRISHNA HOUSE

Motto - 'Optimism is the faith that leads to achievement. Nothing can be done without hope and confidence.' – Helen Keller

This year proved to be challenging and exciting for us. It has also given us the opportunity to tap the innate talent of the students. The house put up a commendable show in the Annual Sports Day and was declared the best house. Many Krishnites got the opportunity to showcase their talent at the State and National level. The untiring efforts of the three house wardens paved the way for Krishna House reaching the pinnacle of glory. Krishna House is proud of all its prodigies.

CROWNING GLORY OF JHPS

AWARDS OF EXCELLENCE

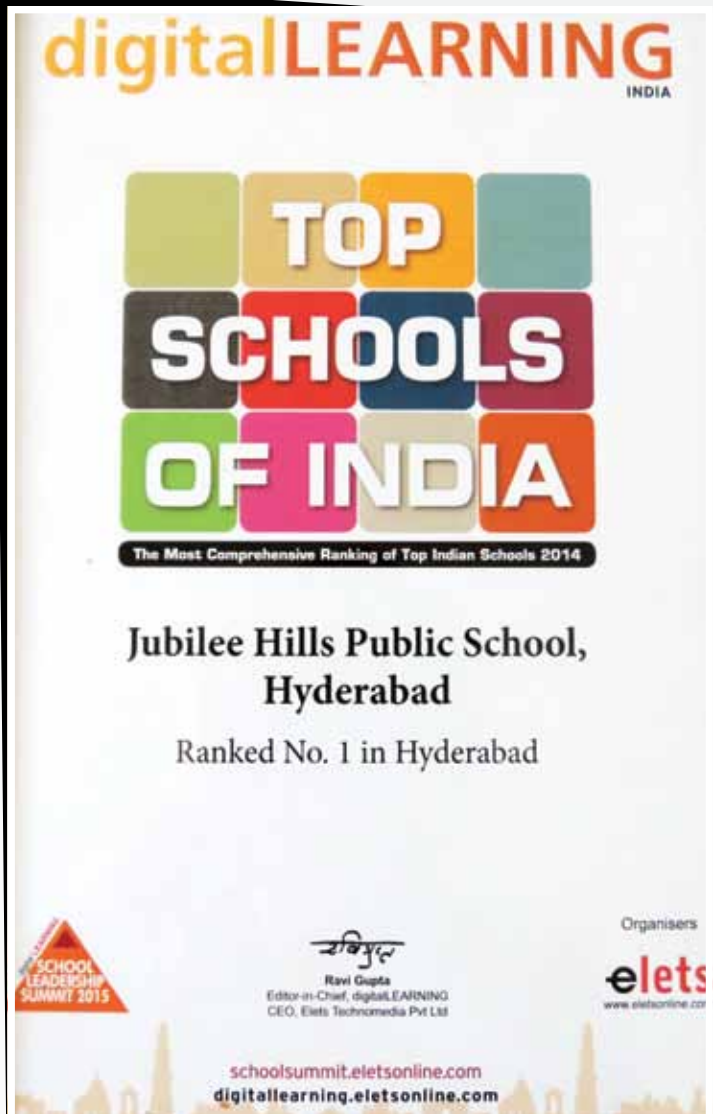

The will to win, the desire to succeed,
The urge to reach your full potential,
These are the keys that will unlock the door to personal excellence.

RANKED NO.1 IN HYDERABAD BY DIGITAL LEARNING

As a premier and renowned school in Hyderabad, Jubilee Hills Public School has proved its motto "TRADITION AND TECHNOLOGY" and is ranked the FIRST among Hyderabad Schools for the year 2014-15 by Digital Learning Magazine. The top most rank is a feather in its cap.

Asia's premier magazine on Education, Digital Learning magazine's mission is to raise awareness about how Information and Communication Technology (ICT) is playing a pivotal role in enhancing the scope, reach and quality of education. The magazine conducts annual surveys to judge the schools. Schools have been evaluated on the basis of the following indicators: School Reputation, Academic Performance, Teacher Competence, Academic Excellence, Infrastructure, Students' Development, Sports and Extra-Curricular Activities.

The Principal, Ms. M. Varalakshmi received the award in Delhi.

AMONG THE TOP 20 CBSE SCHOOLS IN HYDERABAD BY BRAINFEEED

The school was awarded one of the top 20 schools in Hyderabad by Brainfeed, a prestigious educational magazine as the school that has constantly upgraded its knowledge base by employing and retaining educated, learned and knowledgeable teachers and other support staff and keeping them motivated to perform optimally in a consistent manner.

The research team of Brainfeed carried out an extensive and exhaustive survey to identify the top 20 schools in Hyderabad based on excellence in a school's pedagogic practice, culture, core values and management. Brainfeed's objective in organizing this award was to identify schools that are constantly pushing themselves to excel in transforming their institutions into an abode of learning, enhancing their school students, intellect and making them worthy to lead a bright life in the future.

Prof. Y.V.U Varma, Managing Committee Member and Ms. G. Sree Devi, the Academic Director attended the award function at Bengaluru and received the award.

A number of eminent and leading educationists have also been interviewed by Brainfeed about the School Ranking system and excellence awards. The Chairman, Sri. A Murali Mukund was

interviewed in this context. In his interview to the magazine, he stressed that the physical infrastructure and the teachers are the best features of the school. He also spoke about how every year a Career fair is organized to provide career guidance to the outgoing students. He emphasized that the main reason for being one of the most successful schools in Hyderabad inspite of being a non-profit organization is that the school is dedicated to provide quality education to the students with all the latest infrastructural facilities.

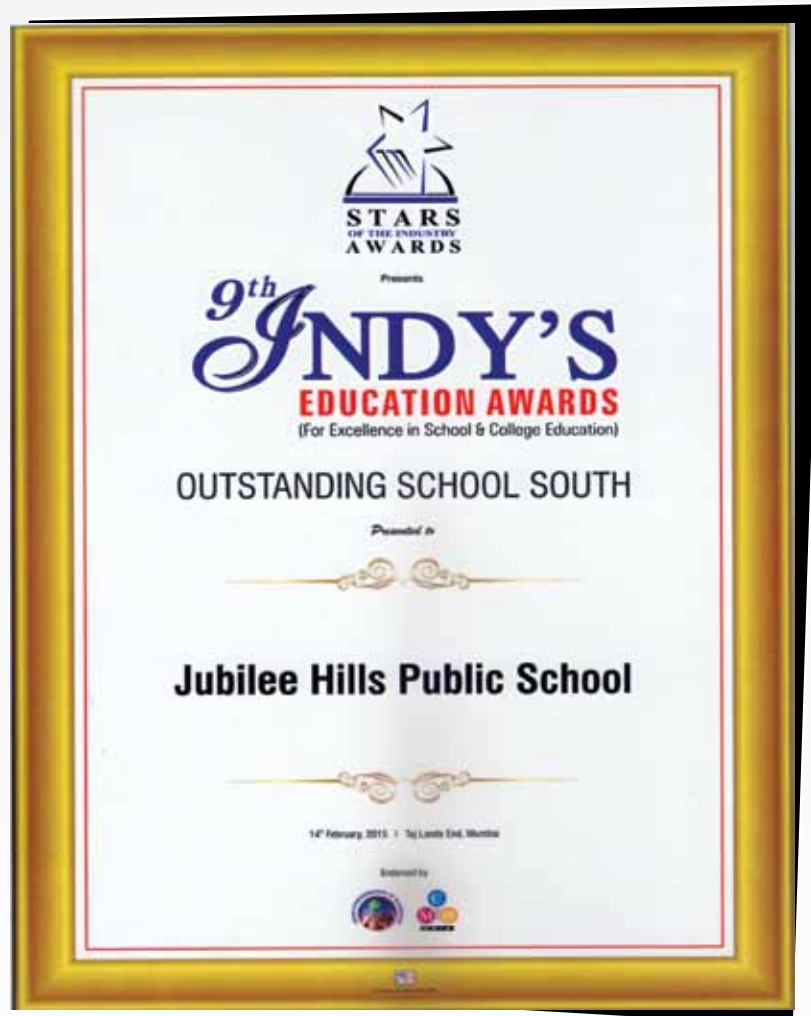

OUTSTANDING SCHOOL SOUTH BY INDY'S EDUCATION AWARDS

The school was honoured with Indy's Education Award for Outstanding School (South) for its outstanding contribution to the field of education. Out of the six selected outstanding schools from South India, JHPS is the only CBSE School selected for this award from Andhra Pradesh & Telengana region.

The Indy's Education Awards is an international accolade conferred by the Stars of the Industry Group. The Award programmes were created more than 40 years ago to recognize outstanding accomplishments under the banner of Golden Star Awards. In India it is their 9th year of recognizing the best in Education, IT, Marketing, Manufacturing and Corporate Social Responsibility, etc.

The Awards set standards and benchmarks of a very high order for others to emulate. The objective is to create values that will set iconic leadership and orient people to that leadership. Indy's Education Award recognizes schools and colleges that are role model to the entire community of educators and inspired them to improve from good to great. The award was received by the Principal, Ms. M. Varalakshmi and the Academic Director, Ms. G. Sree Devi at the award ceremony organized on 14th February 2015 at Hotel Taj Lands End, Mumbai.

BEST SCHOOL IN ANDHRA PRADESH & TELANGANA BY ASIA EDUCATION SUMMIT

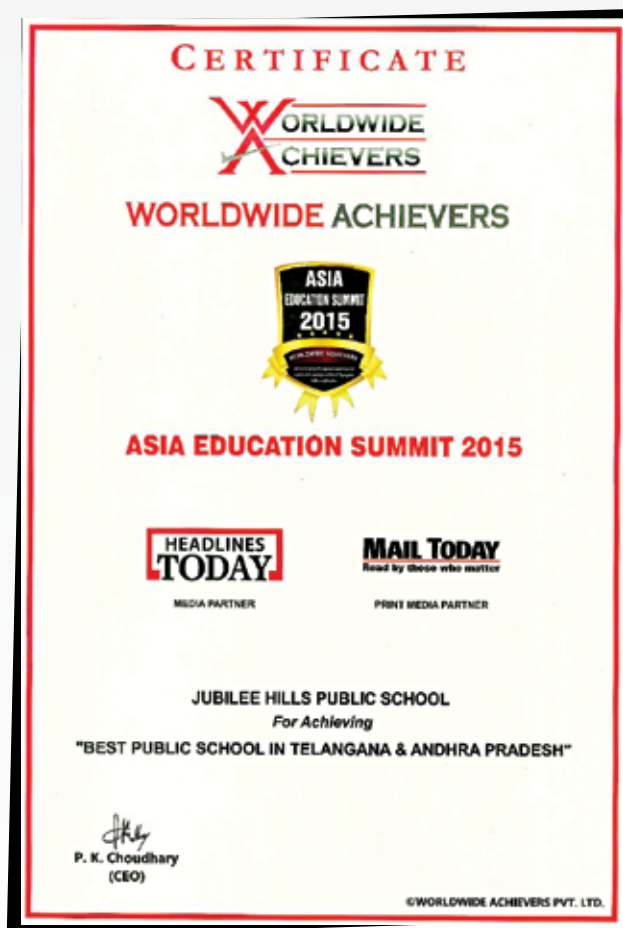

The school is again the proud recipient of a fourth Award "Best School in Andhra Pradesh and Telangana". Worldwide Achievers and PERSON (People for Education Research Scholarship & Outward Nutrition) presented the award in the 5th Asia Education Summit 2015 - Asia's most authoritative Conference & Awards for the Education Sector organized at the Hotel Ashok, New Delhi on 25th March 2015. Asia Education Summit for Education in association with Headlines Today and Mail Today as Media Partner is the premier international platform dedicated to innovation and creative action in education where top decision-makers share insights with on-the-ground practitioners and collaborate to rethink education.

The theme of the Summit revolved around various topics like "Vision and Strategies for Higher Education Institute", "Evolving Educational Pedagogy", "Role of technology in Access to Education", "Grading system in Primary and Secondary Education", "India as the global choice of destination for Affordable Higher Education." The Asian Education Summit was constituted by World Wide Achievers to recognize and motivate Educational Institutions which are striving to impart quality education.

The award was received by the Academic Director, Ms. G. Sree Devi and the Academic Coordinator, Ms. Suneeta Roopchand from India's Olympic Gold Medal Shooter, Mr. Abhinav Bhindra at the award ceremony organized by Worldwide Achievers in Delhi on 25th March, 2015.

The Chairman, Sri A. Murali Mukund, the Principal, Ms. M. Varalakshmi, the Academic Director, Ms. G. Sree Devi, shared their happiness and expressed their heartfelt thanks to all for putting in their hard work through all these years to bring laurels to the school.

AWARDED FOR BEST PEDAGOGICAL PRACTICES AND PROVIDING QUALITY EDUCATION BY BRAINFEEED

The school was awarded at Kuala Lumpur on May 4th 2015 by Brainfeed, a prestigious educational magazine. It was in recognition of the Best pedagogical practices and providing quality education to the citizens of tomorrow at the international school education leadership summit-2015.

A conference cum School visits for 40 School Correspondents and School Heads to Malaysia and Singapore was organized from 2nd-7th May 2015 by Brain Feed magazine. The objectives of the programme were to discuss and debate why leadership is important in school education, and, deduce ways on how, one can, implement time tested quality educational practices, and, also find newer ideas, to make the present day education system, a robust entity in the development of a nation.

The Summit was an avenue to explore new and experimental ideas and methods in education. Prof. B.V. R. Chowdari from the National University of Singapore enlightened the participants on the system of education in Singapore. Based on results of the Primary School Leaving Examination (PSLE), students are placed in different secondary education tracks or streams: "Special", "Express", "Normal (Academic)", or "Normal (Technical)". He underlined the rigour of the Singapore Curriculum and the efforts put in by the students as the reasons for Singapore's success in Education.

The Next Speaker to highlight the system of Singaporean Education was Prof. Rajdeep Singh Rawat, from National Institute of Education and Nanyang Technological University.

Prof. Rawat spoke about the Excelling of Singapore students in the Mathematics and Science Olympiads. He also shared his own experience of training students for these Olympiads for the past 15 years. Ms. Anne Subashini Sivanathan an Educationist from Malaysia took the audience on a glimpse of the "Methodology, Age Appropriate Curriculum and Worldwide Approach on Pre-school". She also drew the audience's attention on the necessity to help Students with special needs. Ms. Sree Devi Gundapaneni, the Academic Director, Jubilee Hills Public School, Hyderabad threw light on " Innovative Practices in education for the 21st Century". She stressed on the need for Educators to unlearn the 20th Century methodologies on "Teach Less to Learn More"

The Academic Director, Ms. Sree Devi Gundapaneni and Primary Head Mistress, Ms. Sonia Nagpal received the award in Singapore.

India School Rankings by Education World

Jubilee Hills Public School was ranked 71st by the Education World Magazine in 2014. The parameters on which the Best Schools were ranked were teacher welfare and development, competency of faculty, academic reputation, co-curricular education, sports education, life skills education and conflict management, individual attention to students, leadership/management quality, parental involvement, infrastructure provision, internationalism, special needs education, value for money, and community service. The school is ranked in the top 10 in the state of Telangana.

The Winners

Winning Accolades for the School

The students of our school secured the 5th rank at the National Level Short-Film Making Competition organized by Nehru Bal Sangh, New Delhi. Akhil Krishna Reddy, Nipun Chowdary, Sushmitha G., Ascharya Priya, Nrupen Sai Gutta of class XII participated in the competition and got selected amongst the top 20. They were the only team of students who got selected from Telangana & Andhra Pradesh. They also received a cash prize of Rs. 5000/- and certificates. The awards were announced and distributed in National Youth Film Festival held at Marwah studio, Noida on 15th November 2014. The students were guided by Mr. T. Srinivas from the Computer Department.

On-Screen Marking Centre

A remarkable milestone for the School

The Central Board of Secondary Education (CBSE) evaluates the answer sheets of its class 10 students through an on screen marking (OSM) system. The board has introduced this scheme to erase any chance of wrong totaling of final marks, and to do away with apprehensions in the minds of students that any of their answer might have remained unchecked.

Our school has been selected as the nodal centre in Hyderabad for OSM. It validates the school's decision to run a well equipped computer lab which is further enhanced by the CBSE's decision to select the school as the OSM centre for Hyderabad because of the quality of the required facilities being available. The school has around 400 Computers placed in three spacious labs. The entire campus is networked and intranet facility is provided for various tasks pertaining to the daily routines. This finally paves the way to turning the campus into a paperless environment.

Career Fair for Class X

Dreams and Aspirations

Jubilee Hills Skill Development Centre organized a Career Fair for students of class X. The programme started with a prayer and a welcome song. The Principal, Ms. M. Varalakshmi welcomed the Class X parents and students to the Career Fair and said that we cannot change people but we can make them feel the need for change.

The Chief Guest, Smt. G. Usha Rani, Senior Consultant Cardiothoracic Surgeon, Care Hospitals, gave a briefing about the opportunities available in the field of medicine. She said that whatever profession one chooses, patience and perseverance only can bring them success.

The School Counsellor, Ms. T. Aarthi, informed the parents and students that identifying the subject one is interested in, should be the priority. One should always study something that one enjoys, only then is there a match between the aptitude and the attitude of the child. She advised the students to introspect their dreams and aspirations, and never to follow the crowd. She advised parents to guide the children in identifying their profession and not to dictate to them.

The Academic Director, Ms. G. Sree Devi, said that the students at this age dream big but they do not put in the hard work that is required to grow big. She advised students to have lot of perseverance, so that they can achieve their goals.

Address by Dr. G. Usha Rani, Senior Consultant Cardiothoracic Surgeon.

NEW COMPUTER LAB AND CREATIVE CORNER

A new Primary computer lab was inaugurated on 6th December, 2014 by the Chairman, Sri. A. Murali Mukund to facilitate the students of the Primary section.

To be in touch with Nature, the Pre primary play area has been revamped to aid as an open theatre corner and also serve the purpose of a dining area for the kindergarten children. Children are brought to the play area and they narrate stories or rhymes under the open skies. This provides them a new setting from the usual classroom and children enjoy the activities performed there along with the teachers.

SOCIAL RESPONSIBILITY

Social responsibility dictates that every human being has an obligation to act empathetically and in a humane manner for the benefit of society at large. In the field of education, this becomes all the more important because of its inherent requirement is to uplift educational standards, promote cooperation and maintain harmony in society. Jubilee Hills Public School has been proactively taking many initiatives in this regard.

JHPS fulfills the infrastructural requirements of many Zilla Parishad schools that are faced with impediments in the dissemination of knowledge due to the lack of appropriate furniture/facilities for the students. For more than 10 years the school has donated benches, desks, computer peripherals, desktops etc to improve the educational infrastructure in the Govt. and the Zilla Parishad schools.

The Student Welfare Fund constituted by Jubilee Hills Public School to support the students and encourage them to participate in enriching national and international programmes has been instrumental in sponsoring the recent Canada Visit of one of the students Ms. M Sai Siri of

Class 10-(2014-15 batch) who got selected in the Business Plan competition conducted by ISB (Indian School of Business). This Global Level competition which was held in Vancouver Canada on 21st June 2014 had been preceded by preliminary competitions held earlier. Of the entire Hyderabad team, Sai Siri got a chance to do the elevator pitch. Sai Siri came back with wide knowledge and an ambition to pursue entrepreneurship.

Similarly the Head boy of the institution in the year 2011-12, Pranav Nuti, a brilliant student was invited by ISRO as he was a class X topper in Andhra Pradesh. He bagged the runner up prize in the GSLV award talent test and quiz conducted by Satish Dhawan space Center. He was sent to Singapore by the school to take part in the Math Olympiad.

Jubilee Hills Public School also displayed its benevolence and empathy by offering Rs. 2 Lakhs as financial assistance from its Student Welfare Fund for the medical treatment of a student who had been diagnosed with cancer (2014 - 15).

A little boy was afraid of the dark. One night his mother told him to go out to the back porch and bring her the broom. The little boy turned to his mother and said, "Mama, I don't want to go out there. It's dark."

The mother smiled reassuringly at her son. "You don't have to be afraid of the dark," she explained. "God is out there. He'll look after you and protect you."

The little boy looked at his mother real hard and asked, "Are you sure he's out there?"

"Yes, I'm sure. He is everywhere, and he is always ready to help you when you need him," she said.

The little boy thought about that for a minute and then went to the back door and cracked it a little. Peering out into the darkness, he called, "God? If you're out there, would you please hand me the broom?"

A teenage girl had been talking on the phone for about half an hour, and then she hung up.

"Wow!," said her father, "That was short. You usually talk for two hours. What happened?"

"Wrong number," replied the girl.

A man receives a phone call from his doctor.

The doctor says, "I have some good news and some bad news."

The man says, "OK, give me the good news first."

The doctor says, "The good news is, you have 24 hours to live."

The man replies, "Oh no! If that's the good news, then what's the bad news?"

The doctor says, "The bad news is, I forgot to call you yesterday."

GALLERY OF ACTIVITIES

VIBGYOR COLOURS AROUND ME

Each colour has its own significance and beauty. They portray different emotions and concepts. If white stands for peace, green stands for prosperity and likewise all the colours have their own importance and value.

Children are always fascinated by the colours and so Jubilee Hills Kindergarten introduced these beautiful colours through creative and innovative activities which help to enhance the imaginative side of the child. The colour concept was introduced through different activities like dances, rhymes, songs, puppet shows, art, craft, model making, depictions, speeches etc. These activities helped the child understand the colour better and relate with their surroundings.

The Chairman, Sri. A. Murali Mukund, Principal, Ms. M. Varalakshmi, Academic Director, Ms. G.Sree Devi, Academic Coordinator, Ms. Suneeta Roopchand, Secondary Headmistress, Ms. Durga, Primary and Pre-Primary Headmistress, Ms. Sonia Nagpal shared the colourful experience with the tiny tots.

DIWALI SPECIAL ASSEMBLY AND BROWN DAY CELEBRATIONS

Festival of Diwali was celebrated on 17th October, 2014 in the special assembly. All the children from LKG and UKG were present. The assembly began with Astalakshmi slokas recited by students and this set the mood for celebration. There was a Powerpoint Presentation on how to burst crackers safely. This was presented by Ms.Nalini.

The presentation was followed by the children dancing to the tune of instrumental music. After that was a mesmerizing Diya Dance. Children's depiction on the story of Narakasura Vadh was very interesting. Diwali dance was performed by LKG and UKG students. A squirrel puppet show was presented by one of the teachers, Ms.Rashmi which was quite amazing. Pre-Primary Teachers, Ms. Laxmi Kumpatla and Ms.Spandana entertained the kids with their melodious rhymes recitation on the colour brown. Ms.Bindu and Ms.Udaya made the stick Teddy bears and these were given to all LKG and UKG children. After the programme, the children were taken to the ground to burst crackers.

PONGAL CELEBRATIONS

Jubilee Hills Kindergarten School celebrated Pongal on January 9th 2015. A prayer was performed by the dignitaries present after which the programme started with students singing a prayer song. Students were dressed traditionally. A drama was performed by the children to showcase the festivities of Pongal - Bhogi, Makara Sankranti and Kanuma. LKG students recited a rhyme, 'the farmer sows the seeds'. Students danced on a few songs which emphasized the importance of Pongal.

There was an amazing blend of art and music as students danced to the melodious tune and painted Pongal pot simultaneously.

The Chairman, Shri.A.Murali Mukund, Principal, M.Varalakshmi, Academic Director, Ms.G.Sree Devi, Academic Co-ordinator, Ms.Suneeta Roopchand, Senior Head Mistress, Ms.Durga and Pre-Primary and Primary Head Mistress, Ms.Sonia Nagpal graced the occasion.

GRANDPARENTS DAY

Grandparents are special to every child. Their bed time stories are an integral part of everyone's growing up years. They are the wise and experienced ones we turn to, in times of need. Their knowledge is invaluable and their love is unconditional. As a mark of respect for the Grandparents, JUBILEE HILLS KINDERGARTEN SCHOOL students celebrated Grandparent's Day on Saturday 6th September, 2014.

The Chief Guest, Shri C. Narasimha Rao, a Prominent Writer, in his speech expressed his delight on being present for this occasion and appreciated the splendid show put up by the children.

The programme started with a prayer song sung by the children of LKG and UKG, followed by a dance, Govinda bolo Hari Gopala bolo. The tiny tots dressed up in colourful Punjabi traditional attires performed the bhangra. Semi-classical dance was performed on Endaro Mahanubhavulu, a kriti by the famous legend Thyagaraja. The Rock and Roll dance gave the audience a chance to tap their feet. A song called "Grandparents you are special, yes you are" and dohas in Hindi by Saint Kabirdas were presented by the little ones for their grandparents.

A few grandparents exhibited their talent by chanting slokas and Prayer Mantra to Lord Shiva.

The Chairman, Sri A.Murali Mukund in his speech, emphasized that the younger generation should be aware of the strength of

the elderly people and give support in every possible way to make them comfortable and reassured in life.

The Grandparents appreciated the school's effort of inculcating moral values in the students. They reiterated that these days when children do not even respect the elders or have time for them and go about their own work, it was heartening to see that their grandchildren are learning to value them.

The Grandparents also enjoyed participating in a few games conducted in the classrooms for them. The first, second and third winners were awarded with mementos.

FIELD TRIP TO NEHRU ZOOLOGICAL PARK

On 13th November, students of Jubilee Hills Kindergarten School went to the Nehru Zoological Park as a part of Children's Day celebrations. This was an educational field trip which was organized for the students. Students had a great time watching animals, while taking a ride in the train. Children excitedly looked at the giraffe with a long neck heading towards the tall trees to eat green leaves. Students also saw a group of deer with lovely antlers. Children were happy to see a white tiger, monkeys, gorilla, crocodile, ostrich and emu bird. Teachers accompanied the students telling them about the animals, their young ones, their habitat, their food and so on. After the train ride the students sat in the lawn and had delicious food. They shared their food with their friends and had a great time playing in the lawns. The trip ended with beautiful memories carried by the little ones and knowledge gained about different animals in the zoo. All the kindergarten children enjoyed Juice and Chocolates during their bus ride to the school, which was given to them on the occasion of Children's Day, by the School Management.

GROUP ACTIVITIES BY LKG & UKG STUDENTS

SPORTS DAY

Novelty and individual races for Kindergarten were conducted on 18th December, 2014. The 100 meter running race for both girls and boys was very exciting. There were 12 participants in each group. All the 7 sections from LKG and UKG took part in the competition. The novelty races for LKG were **Hoopla Race and Finding the partner**.

GRADUATION DAY

Jubilee Hills Kindergarten School celebrated the Graduation Day, "Indradhanush" on March 7, 2015. The function began on a solemn note with an auspicious Ganesha dance depiction by students of Kindergarten. Primary and Pre-Primary Headmistress, Ms. Sonia Nagpal with her gracious presence welcomed the parents. The Chairman, Sri. A. Murali Mukund in his speech addressed the gathering and encouraged the parents to enjoy with the kids and teach them values of life. An LKG student welcomed the parents. The programme began with a 'Classical Fusion Dance' which mesmerized the audience. Next in line was a performance on 'Maa Tujhe Salaam' which aroused the patriotic fervour in all of us, once again.

A few students of UKG shared the joyous experience of their schooling at Kindergarten. Students promised to keep their little lights shining as they sang the Graduation Day song with a lot of enthusiasm. Our little graduates received their graduation certificates wearing beautiful graduation gowns and caps from Sri A. Murali Mukund. The parents and teachers shared a proud moment when the students stood confidently while receiving the certificates.

Skit on the wit of Tenali Rama 'The Roots of Rasgulla' was hilarious and garnered lots of applause from the crowd. The Kerala Classical Dance showed a glimpse of the Indian culture and tradition. The programme concluded with the Goan dance. The rhythm and the catchy tune kept the parents tapping their feet.

The programme concluded with vote of thanks given by a UKG child. He expressed his gratitude and thanked the entire team for their hard work, dedication, and their commitment towards making the event a memorable one.

Be A Food Ranger

Drums roll relentlessly in the null void, the polyphony of sounds vibrating into the depths, heard by none except the bearer. The pain starts low and moves higher as the temperature increases. Black and white feelings, making him dizzy. Images of food flicker faintly before his eyes, like the midnight street lights. What has the fellow done? Is it only because his tattered purse refuses to jingle, is it because the fat man ignores his purple pleas? A thousand reasons, but none is of help. The hungry man continues to starve...

Almost every day, we pass along numerous streets and it is not possible for us to move without spotting dilapidated looking tents and starving beggars. Some beg for food, while some for money. All they crave is for something to fill their stomachs with. In fact, everyone in the world does, don't they? Every person works to gain money, which in turn buys them food. What makes the

difference is that the rich landlord would get it faster and timely on need, while the families with not a penny in their fists keep suffering.

One of the prominent reasons for the food scarcity amongst the low rungs of the society could be the wastage of food by the affluent sections. Lavish lunches, buffets and long tables with exquisite dishes, which nobody would care to eat, are being dumped on a large scale today. It is enough to fulfill the needs of a famished man for two months!

So this is a call out to all the food offenders (people who disrespect food) around the globe not to blame anybody instead stop wasting your food. They may be mere stones to you, but to the hungry lot, they would be indispensable gems. Start donating excess food to the poor, and be proud to call yourself a food ranger!

Discovery of a Friend

"Friendship is something you do not realise unless you share it with somebody".

This incident dates back to the time when I was in the 2nd grade. I was in Delhi, and we had recently shifted there. My school was a grand one, with many classes, teachers and students. Even though most of them were really friendly, it naturally took me a couple of days to make friends and adjust in that environment. I had many friends, but never tried talking to this girl named Archie. Sounds weird, but her name really was Archie. There was a myth about her, that she was too arrogant to talk to. However, I always felt an urge to go and talk to her. I always thought there must be some reason for her to be so silent. One fine day, the seating placements of our class, guided by our class teacher were going on. I don't know – knowingly or coincidentally – our class teacher made Archie sit beside me.

I tried to talk to her, and I was stunned to say the least by what transpired. She turned out to be extremely polite and the sweetest of all one could be while talking. Days passed by, and every day we sat together, which added to our already blossoming friendship. Finally, we both became best friends. Even though we did not get many days to celebrate our friendship I had to move to Hyderabad with my family. We have remained friends through the years. We still talk to each other over phone and chat over Skype. Whenever I think of friendship, the name that immediately flashes into my mind is Archie.

So dear readers, never judge a person by listening to what people have to say about them. Who knows, you may find a good friend in a person who you did not even think of talking to."

You can have friends, as many as you say,
Because, they are the ones who'll keep you smiling,
Each and every day!

The Wise Frogs

Once upon a time, there lived two frogs in a marsh. They were very happy with their home. But as the hot summer approached the marsh began to dry up. In a few days, the marsh got totally dry. So the frogs decided to leave that place and look out for some other shelter for themselves and reached a deep well. They sat on the edge of the well and peeped inside it. It had a lot of water in it.

One of the frogs got overjoyed to see the water that it said, "This well looks quite a fit place for us to live. It will be cool and safe inside. Let's jump in".

The other frog was wise enough and replied, "Not so soon, my friend! We left the marsh when it had dried up. So, first think, how would we come out of this well if it gets dry".

The first frog was speechless, and he realised that **ONE MUST THINK BEFORE TAKING A STEP.**

The Mystery car

My bus stop was near a garage. Many old cars were kept outside. One day when I was going to the bus stop, I heard a noise, and on looking carefully, I saw a little child's face inside a car. I went near the car, but there was nobody in it. How could that happen? I just saw a kid! Was it a ghost? If it was, what was it indicating? An accident? Or something else maybe? What could have happened to that small child? It seemed mysterious...

I thought I was related to this matter somehow, and got curious. Then I went to the car and when I saw a newspaper inside, it got more eerie. In it was written that a guy, called George Simpson and his family were murdered in the car! Nobody was left alive, except one girl, Susie Simpson. Susie Simpson? That was my mom!

I quickly ran back home and asked my mother who George Simpson was. Tears rolled down her eyes upon hearing me. She replied that George was her brother and my uncle. Her family was killed by terrorists in her childhood. She showed me her family photo and that said it all.

SCHOOL – My favourite place on Earth

Hello, my name is Bhavya and I am a fifth grader of JHPS. I like my school because we get to learn so many nice things from all over the world by just staying in one place. We learn how to respect other's feelings. Most of all, we learn to be one big family. I also love my school because it has loads of fun events in which we get to participate. I also like my classmates because they are fun to play with and they are also very smart. In our school we learn about team work, sharing and caring. We also learn the meaning of friendship. We get to know many good things. My school makes my childhood the best part of my life.

The New Generation

Toys, books and gadgets a dozen,
Cakes, pastries and Ice-Cream's frozen.
Why so many? Why so much?
Some people want the whole world in their clutches...

What is the need? And what is the use?
You can't get everything that you choose.
Why do you sweat? Why do you fret?
To fight for everything you want to get...

Whether it is exciting or fun,
Check the price before you run.
Once you buy you think the job is done
But penny or farthing, are you left with either one?

Mother Earth

This Mother Earth,
Who gives us life ;
This is Mother Earth
Heart filled with strife

We love her not,
Though love we should,
Her death we plot,
For life's "own good".

She gave us air, food, and home,
That's not enough we humans scream;
With greedy lust our mouths do foam,
With evil hopes our eyes do gleam;

Her air we fill
With smoke and death;
Ourselves we kill,
For lack of breath.

The sea once clean
Now choked with waste;
To drink we fear,
Will death make haste;

The soil once pure,
And full of life
Now barren sand,
Of farmer's strife.

No longer she,
Can stand our "love";
Now we must flee
Like scattered dove;

She gave us all,
Unto the end,
Now appalled
Our lives we defend.

Flap Your Wings Out

Oh come! Bring out your missing voices,
Never stay inside the cage and miss your choices
Come out and break the oppressed shell,
Then you alone could find the path out of hell
Enough of useless experiences in your hoard,
The God of the heaven has blessed you,
Now you could break the demarcating box,
And show off the real you that rocks!
Don't look at the world with your eyes,
but rather your heart
And believe me you'll never feel apart
It's finally the time to blast the walls of your dungeon,
And come out.

My Potential, What 'me' is about?

The modern generation,
Which everyone thinks is just of a kind,
Gadgets everywhere and those pretty
books left behind.

But I will surely prove
What my potential is,
What 'me' is all about...

And as I say,
Listen to me carefully...
Maybe these lines will make you
understand,
What my potential is,
What 'me' is all about...

Let it be a different generation,
Not just games or toys, even books are my
favourite recreation.
Even though comics are a part of my book
shelf,

I still remember that...
There exists a rack filled with amazing
authors like R.K. Narayan and Enid Blyton...
Which will not be left behind.

The 'me-me' generation is just a myth,
Cause' I think I have surely proved what
my potential is
And what 'me' is all about.

THE BEAT OF OUR DRUMS

Our parents say that we're all the same,
all we do is crave immense fame,
our generation is to blame,
for all wickedness that happens today.

We live for the moment, they say,
die tomorrow, live today.

We're procrastinating our lives away,
not watching the future that slowly fades,
to be replaced by oblivion and decay,
of us alone, helpless, with more dues than life to pay.

But have we really been moulded that way?
Are we really that sad a case?
Aren't we the ones who are advancing the world,
planning a future for coming at a fast pace?
Are we really that sad a case?
Do we really not do anything right?
We try and toil our nights away,
even when no fruit comes our way.

Are we really that sad a case?
Was it not our elders who paved our way?
told us to succeed in everything we do,
taught us how and what to do?
I speak today against the pain,
many of us endure again and again,
none of us are worthless as some may say,
we are good in our own ways.

Yes, there are few,
who are branded as ghastly,
and almost always it is because,
they have no way to take.

They feel unaided and reach out for every ray,
be it good or evil,
they begin to cease to care,
they reach out for a friend as in hope their heart lays.

I hope I have changed your ways,
of looking at us as meager strays,
we crave your care and love every day,
we still need your help to live and face,
the dangerous world we live in today.

You gave us life and love to fill a millennia,
but all we really ask of you.
Is to understand us.

Light years out from here to there
Your lights distorted by the air
So twinkle twinkle little star,

Out away from the earth you drift
This is known from your redshift
Twinkle twinkle spinning star,

You got so big, too big perhaps
Electron capture, core collapse
Twinkle twinkle former star,

"Mother" is such a simple word,
But to me there's meaning seldom heard.
For everything I am today,
My mother's love showed me the way

I'll love my mother all my days,

She set me straight and then set me free,
And that's what the word "mother" means to me.

Work hard in silence, let your success be your noise - Frank Ocean

Library is the hub of any Educational Institution. It shows the intellect of the Head of the institution. But in many schools the management gives least importance to library. They maintain libraries to fulfill the norms of the Board they belong to. Carrying the same thought in my mind I joined Jubilee Hills Public School. But in a very short period I realized that I was wrong. Unlike many other schools, the management of this school gives the top priority for library and its collection. They pay attention to every aspect not only in academics but also in teaching values and discipline of the students. With their support we are able to upgrade our library collection and its infrastructure. I feel very happy when children come and say that they love their library. As a library professional I content that I am able to do my part, may be a drop in the ocean, in building up good future society with values.

Purity, patience and perseverance are all what we require

What does Perseverance mean ? Perseverance means persistence in doing something despite difficulty or delay in achieving a goal or success.

Those who accomplish great things in life have what is called a "winning attitude". They are positive, serve a greater purpose, passionate about what they do, determined and believe in themselves. All these qualities allow them to persevere and overcome obstacles. Perseverance is a rare quality. In these days of microwave ovens, fast food and instant messaging, we have become accustomed to instant gratification. We want everything NOW. So those who persevere to achieve their goals stand out.. Albert Einstein once said "It's not that I am so smart, I just stay with problems longer."

I would now like to narrate a story that I had read somewhere and that had made an impact on me.

Two young frogs fell into a bucket of milk. Both tried to jump to freedom, but the sides of the bucket were steep and no foundation was to be had on the surface of the liquid. Seeing little chance of escape, the first frog soon despaired and stopped jumping. After a short while he sank to the bottom of the bucket and drowned.

The second frog also saw no likelihood of success, but he never stopped trying. Even though each jump seemed to

reach the same inadequate height, he kept on struggling. Eventually, his persistent efforts churned the milk into butter. From the now hardened surface of the milk, he managed to leap out of the bucket.

The moral of this little inspiring story:

--Those who don't give up and persevere may be in for a pleasant surprise!

To Develop Perseverance

Master these five personal factors and you will develop perseverance within yourself.

1. Develop the sense of being in control of your life.
2. Develop a network of friends and family to provide "social support." A supportive alliance with a select few will help you carry your plans through to fruition.
3. Develop personality traits such as hopefulness and flexibility. Terminate any and all negative influences in your life.
4. Develop willpower as well as a definite purpose. Continuously move forward with your goals, plans, dreams, and aspirations.
5. Decide "I Can! I Will!"

As the Great Statesman Sir Winston Churchill once said in a famous speech. "Never, never, never give up!"

Perseverance and effort are the keys to the door of success Swami Vivekananda, the leader of leaders, said that three things are necessary to be successful. "Purity, patience and perseverance" are all what we require, he said. If we follow this, we will reach our destination.

Courage is not the absence of fear, but the mastery of fear

"Courage is the mastery of fear, not absence of fear", it means that one has to overcome their fears. This doesn't mean that one has to abandon fear altogether.

So to understand the quote we should know why having fear is a good thing. Fear is a feeling of agitation and anxiety caused by the presence of danger or uncertainty. At the basic level, fear is the gift that we all possess. It is this that keeps us out of danger and uncertainty. Fear has protected us as a species from extinction. Without fear we wouldn't have known to run away from a tiger or take a step back from a thousand foot drop.

Fear results in two kinds of responses – flight and fight response. Someone seeing a barking dog and

standing his ground is fight response. He is taking his chances against the dog. Whereas someone running away from the dog is an example of flight response. The second person subconsciously decided that he can't win against the dog, and hence the flight response.

It is good to have a healthy amount of fear in life. Fear of heights, water, fire etc. and to flee away from them. What is your response to your exams? Will you display a flight response, or fight response? The healthy level of fear of exams is that we harness our fear and try to overcome it. This is when someone prepares for exams and faces them rather than getting intimidated by the exams and missing them altogether. Have you not come across great athletes spending time alone meditating to perform the best before the competition day?

So let us reflect on this thought and face fear

Jennifer Sarojini Inti - Science Department

Time is very powerful. It has more power than the mightiest of monarchs.

Time is our most valuable non renewable resource and if we want to treat it with respect, we need to set priorities.

Time management is basically planning and deciding time in a constructive way. For instance we have a number of activities that have to be taken care of in a particular period of time. So we should be able to plan our activities in such a way that we are able to complete all the work in a given span of time.

People who made effective usage of time at their disposal, got the best from time. But those who forgot the value of time found to their utter dismay that it was harsh on them later.

In other words successful people use time in the best possible manner to achieve their goals. Most of us waste our precious time in unnecessary things such as gossips, roaming aimlessly, grieving over past blunders or day

dreaming. It must always be kept in mind that, Time and tide wait for none. Time can be spent wisely or foolishly the choice is ours and so are its consequences.

Basically, time and opportunity once lost can never be recovered. The flow of time is ceaseless and eternal and all are like small insignificant particles in this endless and continuous flow.

A proper use of time means the right use of an opportunity. As a very popular saying goes 'A Stitch in time saves nine'

One should inculcate the habit of early rising as one can complete a number of tasks before the day has even started.

To conclude, it is foolishness to think that we can make up for the last time. There is a popular saying that 'the past is dead and the future is unborn'. There are no tomorrows and yesterdays, It is today which is important. Time is very powerful. It has more power than the mightiest of monarchs. For they come and go, but time remains forever without an end or a beginning.

The most unforgettable memory

SPEAK
OUTS

My most memorable moment was when we were taken to Pragati Resorts by the school on children's day. We swam in the pool and tried every ride. We laughed and cracked jokes with all our friends. The bus ride was a lot of fun too! None of this would have been possible without the school and the teachers! And I enjoyed every moment of it.

Anvitha, IX E

Farewell is the most memorable memory of mine along with a lot of others. I think I enjoyed it because most of my friends were participating too and I got to spend time with them in between of our practices. The show was the best part because all our hard work paid off, both the ninth and tenth graders found the show extremely entertaining!

Akshitha, IX E

My most memorable moment in JHPS was teacher's day. My friends and I helped in decorating the assembly area and had loads of fun. The fact that we were doing all this for our teachers made it even better. On the day of the event, the happiness on our teacher's faces was all I needed to feel happier than ever.

Harshita, IX B

I had many unforgettable memories in JHPS, but two stand out. The first encompasses the prizes I won in debate, extempore and book review competitions, they made not just my day but my entire year happier than I ever thought I could be. I will always remember grinning whenever I won a prize because all my hard work helped me achieve. The second was when I met my friends, without whom I wouldn't have most of the memories that I will cherish forever. They stood by me and defended me and I have no clue what I would be without them. Without JHPS, none of this would have been possible.

My most memorable moment was my first day of school. I felt very awkward and new. But, the teachers were very welcoming and friendly. I still remember, on the first day of school I cried because I did not want to go to school and on the second day I cried was because I did not want to leave school. I'm sure I will remember this moment for years to come.

People who left their footprints in the sands of time

“Lives of great people remind us we can make our lives sublime and, departing, leave behind footprints in the sand of time.”
- Henry Wordsworth Longfellow.

Footprints in the sands of time...

Who left footprints in the sands of time?

Mahatma Gandhi

Nelson Mandela

Bhagat Singh

Aryabhatta

Kalpana Chawla

Neil Armstrong

Some great people who contributed immensely to this world. These are people who rose in stature inspite of their circumstances. They adjust their goals and ambitions solely based in the achievements of others in their family or their financial situations. They automatically discount the notion that they too can one day become great, before their lives have really begun.

Greatness isn't something that you are born with or something that's thrust upon you. You become great by what you accomplish during your time, not by who your parents are, how much money you're born into.

You become great by living a sublime existence: by leading a life of high moral and intellectual value. You make your life sublime by inspiring awe and admiration in others, from your deeds and words. You live an existence that's elevated in nature.

Being famous, rich, or even a leader doesn't inspire someone to greatness. Throughout history, there are more rich and famous people who've been forgotten than poor ones who are remembered. There are some who are remembered by what they did. That doesn't mean they've become great. It simply means their actions, good or bad are remembered. Their name is associated with those actions.

The truly sublime are remembered for who they are. What they accomplish becomes secondary. The sands of time is history. When someone leaves behind footprints in the sands of time, they are leaving behind imprints, of themselves or their actions, in history. These imprints, or footprints, last for generations. They become memories, footprints, which may never disappear, or take centuries to disappear.

All of us can leave behind a piece of ourselves to be remembered after we die. When you put humanity before yourself, the path to greatness will open itself to you. When you take that path, you too will leave behind footprints in the sand of time.

Woman of Substance

I am sure you all have heard of the first ever Indian woman to venture into space. After working in NASA since 1988 she finally got the opportunity to fulfill her dreams to embark on a journey to explore beyond the reach of humankind. Unfortunately while trying to fulfill her dream, she passed away in the Space Shuttle Colombia Disaster on February 1st 2003 along with six other crew members.

She was given many awards posthumously like, Congressional Space medal of Honour, NASA Space Flight Medal and NASA Distinguished Service Medal.

Even after her death she is an immense inspiration for the current generation and I am sure that she will also be an inspiration to all the following generations.

Who is she? She is **Kalpana Chawla**.

Burning Patriotism (Shaheed)

Every time the flag is hoisted, every time the 'tiranga' is held high, every time the anthem is sung, in thousand voices, reverberating unity and strength two eyes somewhere twinkle, in the incorrigible past - **BHAGAT SINGH**.

Bhagat Singh was an Indian socialist considered to be one of the most influential revolutionist during the Indian Independence movement. He was voted as the 'Greatest Indian' and still considered one of the most inspiring youth icons of India. Often referred to as Shaheed, he was born into a Sikh family which had earlier been involved in revolutionary activities against the British Raj. As a teenager, Singh studied European revolutionary movements and was attracted to anarchist and Marxist ideologies. He became involved in numerous revolutionary organizations, and quickly rose through the ranks of the Hindustan Republican (HRA) to become one of its main leaders, eventually

changing its name to the Hindustan Socialist Republic Association in 1928. The heights of national support were reaped by him during the 116 day fast in the prison.

The methods he used to convey his message, by shooting down British officers and throwing non-lethal bombs, stood in stark contrast to Gandhi's non-violent methodology. He began to question religious ideologies soon after the Hindu-Muslim riots that broke out in light of the Non Cooperation Movement. Singh's death had the effect that he desired and he inspired thousands of youths to assist in the struggle for freedom.

Bhagat's legacy provoked India to stand up for independence and he

proved to be an exemplary leader in the minds of people even today. A bronze statue stands tall in the Parliament of India in his commemoration and numerous films have been made capturing the life and times of Singh. A postage stamp was also issued in India commemorating his 61st birth anniversary. Singh's legacy is indeed, a mirror ready to be epitomized into the contemporary generation.

pumy appearance-towering personality **Mahatma Gandhi**

A hero when we think of a hero we usually envision a person who is tall strong and muscular. Mahatma Gandhi - One of the towering heroes of India's freedom struggle was none of these things at had the steely will and determination of a true hero. In fact, he can be called a super hero.

Gandhi led nationwide campaigns for easing poverty, expanding women's rights, building religious and ethnic amity, ending untouchability, but above all for achieving Swaraj or self-rule.

But the question is; what makes him our hero?

The quality in Gandhi which inspire us is his humility. He was imprisoned for many years, upon many occasions, in both South Africa and India. Gandhi practiced non-violence or Satyagraha and truth in all situations, and advocated that others should do the same. He lived modestly in a self-sufficient residential community and wore the traditional Indian dhoti and shawl, woven with yarn that was hand spun on a charkha. He ate simple vegetarian food, and also undertook long fasts as a means to both self-purification and social protest.

It was his character and personality that motivated him to fight against the injustice which was being inflicted upon the Indians. We are living in peace today because of the struggle and sacrifice made by him. I hope that his greatness and compassion will inspire people for generations to come.

Swami Vivekananda – The Inferno

"All the powers in the universe are already ours. It is we who have put our hands before our eyes and cry that it is dark." said once, the golden tongue of the nation, Swami Vivekananda. As the name suggests, Swami was a man of wisdom and charm. His suave demeanour, charming visage and his notable expressions made him a model to behold. Swami was a legend, with his geniality enrapturing hordes of humans across the world. His ideas of building a society free from discrimination and inequality were indeed, praised by many. He detested religious intolerance and supported worldwide harmony.

Swami believed that, a heart contented is a man completed. He said that one must learn to recognize the divinity in his own self, and one must know how to live under the shade of it in every moment of his life. Everything that has a beginning must come to an end. Anything that has an ending must begin once again was what he reflected from the Vedas and called it the monopoly of life.

Swami's speeches and sayings sought to bring about a sense of unity and oneness among people. He was a powerful orator and anyone who had heard his words would be deeply impressed and motivated. His questions pierced through false assumptions and brought out the essence of reality, instilling among listeners a feeling of intense thought and realization. 'You are the master of your fate. One whip of your hand can shatter the blindness caused by it.' This is indicative of his boldness. His life speaks his struggle to bring out the power in unity and solitude. His struggle to enlighten and empower young adults of the nation is a paradigm for patriotism.

Each teacher can recount numerous highs and lows in their teaching career. Personally, I experienced many great moments while teaching. The innocent smiles of my kindergarteners make my days brighter.

Samatha- Pre primary

It was a new shift and a new ambience. I had my own apprehensions when I first got in here but there was something that attracted me about the place and I knew it was here that I shall be. My insight was correct I joined and I grew in the school.

Now it's been a year and I feel I have been a part of the fraternity for many years. I got what I desired and would always be grateful for the moments I had here. I learnt and was mentored to be the best. I always found the doors open to walk into and ask all the doubts I had which helped me grow as a person and a teacher. I always thought I would never be able to move forward but I did and the credit goes to JHPS for all the love and care that I have been showered with. Once again I would like to quote,

Today's Little Moments,

Become Tomorrow's Precious Memories.

Working environment at JHPS is very conducive and positive

My first year at JHPS has been a year of forming bonds, building trust, planning and implementing activities and events. The working environment at JHPS is very conducive and positive. The systems here are very transparent. Senior

and Junior staff are open to communication, feedback and inputs. The Management recognizes hard work, develops professional growth and also encourages work life balance.

It has been a pleasure working at JHPS and I hope to continue the trend alongwith my team.

memorable times
So, enjoy the surprises,
Explore new paths, and
Cherish the memories.

I joined in JHPS as a Biology teacher on 1st June 2004. I worked under three Principals and learned many things. Each day was a memorable day like teaching primary and secondary students. I crossed many hurdles and became a successful person in JHPS. Learning is a continuous process. Everyday this learning takes place in academics and non academics in JHPS. I can never forget the day my Science project was selected for the National levels and when we won the ladies cricket match in school.

Where memories last forever

If moments are fleeting, memories are permanent. Memories stay with us as sometimes words aren't enough. Memory is a medium where we continuously share videos, incidents and images that paint a complete portrait of our loved ones, which we can treasure forever. We share our most powerful memories so that they grow with time rather than fade –giving us the ability to celebrate with our dear ones always.

This reminds me about the days I spent with my grandmother. This is a short story I heard from her, the story is an episode from Mahabharata. The story goes this way.

Krishna and Balarama were in a forest, it was a time when there were no forest resorts for people to stay. The sun set and it became dark, Krishna came up with a proposal to Balarama that he would go to sleep and Balarama would keep a watch and when Balarama felt sleepy he would wake up Krishna. Saying this Krishna went to sleep. Balarama started walking to

and he encountered a monster, the monster roared at Balarama, Balarama who was shaken up by the monster shrank in size and the monster became bigger. Once again, the monster roared, unable to take the might of the monster, Balarama called Krishna and fainted. Hearing the commotion Krishna woke up. The monster now seeing a new person, roared at Krishna, Krishna instead of being perturbed, asked the monster what he wanted. The courage of Krishna made him expand and the monster shrink. The monster roared once again and Krishna again asked what he wanted, the monster shrank further in size and Krishna expanded. Krishna tied the tiny monster by a knot to the edge of his dhoti.

The next day after sun rise, they began walking in the forest, Balarama narrated

the incident to Krishna and enquired about the monster, Krishna gently took out the monster and showed it to Balarama, Balarama was shocked to see the huge monster so tiny, and wondered how this was possible.

Vedavyasa through the voice of Krishna said that if you avoid what you must face in life, it becomes bigger than you and takes control over you and when you face it, you become bigger and take control over it. The monster, Vedavyasa referred to is the challenges that one faces in life and if we keep avoiding them, they become monstrous and gain control over us, instead face them and gain control over them.

When you have to face difficulties and challenges in life, you must realize that the very challenges, tough times of life, are not there, the furnace is not there to burn you, but transform you into glittering silver. The very purpose of experiences in life is to make you what you can be.

So now onwards dear friends when you face difficulties and challenges in life remember it is given to you for a purpose and face it to the best of your abilities.

MEANDERING MEMOIRS-A NOSTALGIA TO CHERISH

These Random Reflections
Of my heart, flow unchecked
on this spotless piece of paper
Like the gleaming meandering streams flowing down the
merry mountains
The words are the experiences, thoughts, feelings of my
life's path
Sometimes happy, sometimes hard

Always unfettered- these glorious streams of memories

Always aware, also cautious,
Of the foibles of these treacherous trails
True, I have been beaten
Silent, I have striven,
To keep safe...
My gentle humane heart....
And my thoughts secluded by...
Compassion and moral principles
Individuality-deceptively tough
I, like the multitude
Went through the travails....
That led to a melting heart.
In turn, attaining Inscrutable Tranquility
On the eternal tract of Universality
My message, this to you ...
Conquer and subjugate
The ideologies that deviate...
Contemplate and illustrate...
The ideals that illuminate.

Being a teacher was the best choice for me

I think that the only reason people hold onto memories so tight is because memories are the only things that don't change; when everybody else does.

The only reason people hold on to the memories so tight is because memories are the only things that do not change when everybody else does. I also had many wonderful students from various schools who added some new perspectives to my classroom. It is great to see so many of my former student as teachers out in the teaching field and being very successful at their jobs. They, like me, probably won't get rich but their lives will be enriched by sharing the joy of learning with children.

As I look back on my teaching career, times and schools have changed somewhat. School curriculum has changed, teaching instruction and methods have changed, buildings are bigger, teachers are expected to do more, and technology has changed how students are taught. But to me, the thing that has not changed much are the students. Families now live in a much faster-

paced society wanting bigger and better things for themselves and their children. But more than ever, children still want to learn, they want to belong, they want teachers and parents to take the time to listen to them and they want to be motivated and challenged.

The wonderful thing about being a teacher is that you get to write on the hearts of your students things that the world cannot change or take away from them. We as teachers do make a difference in the world and we may never know which life we made a difference in for. I, for one would decide to be a teacher again in a heartbeat. I love teaching students. I love learning to be a better teacher and most of all I love my students as they enrich my life in a million ways. What other profession in the world lets you know that the students you taught are now doctors, lawyers, teachers, nurses, scientists, pilots, bankers, and parents and you had a small part in their becoming who they are today? Yes, being a teacher was the best choice for me.

My cherished memories in Jubilee Hills Public School

It's been a pleasure and privilege working and being connected to this reputed institution for the past 20 years. This institution has taught me many things as a teacher, it's here that I have grown professionally and also gained a lot of experience in handling children. As they say practice makes one perfect, the same way, experiences make one grow and learn.

Each moment spent with the kids is memorable and can be cherished throughout my life. One such memory that I cherish, is what a student once shared with me. He said that he always remembered me as a teacher who was strict with regard to handwriting and had made him practice a lot as a kid. But now, when people praise him for his good handwriting, he remembers me and feels proud to have been my student.

To mention another instance, almost a decade back we gathered all the children in the assembly foyer during the lunch break. We enjoyed a lot with all of them. The love and affection we received from them was boundless.

Life brings tears, smiles and memories. The tears dry; the smiles fade; but memories...last forever."

Memories some make you laugh, get angry, even cry but the one thing is for sure they all share a place deep in our hearts. I have many memories but one which stands out most in my mind, heart and soul is my first day at International Indian School, Dammam, K.S.A.

I went to school to get UKG admission for my daughter. There unexpectedly I met the Principal Mr. Mohd. Anwar, as the admin. Office required his signature on certain forms. During our conversation he asked me about my qualification and learnt my passion towards teaching and asked me to drop in my resume, which I did immediately without any hesitation (I was not aware about the strength of the school and I even did not know that there were separate sections for boys and girls).

The very next day ie.3rd Sept. 2003 (Wednesday), I got a call to attend an interview on Thursday, where a panel of members including the Principal interviewed me and asked me to join the school. The next day being a holiday ie. Friday, I was asked to join on 6th of September 2003. On 6th September as I entered the school premises, I saw banners made by students to celebrate "Teachers Day". I felt overwhelmed. Everything appeared to be very new, I didn't know any one there, it was completely a new place with new faces, I approached the reception and gave my introduction. The receptionist directed me to the Principal's office.

In the Principal's office I was introduced to the Vice-Principal, Dr. Anwar Batcha (incharge of Boy's section) with whom I was supposed to work. The Principal invited me to be a part of the celebration and asked me to collect my time table and other related responsibilities from the Vice-Principal later.

I was given class 9 Civics and class 8 Social Science, as I entered the long corridors I could sense the students peeping out and discussing about this new entry into the school, I entered class 9 G and there was a huge commotion in the class(it was not easy for them to accept a new teacher during the 2nd term). It took 15 minutes for me to settle them, then I gave my introduction and asked them to feel free. Initially it was difficult to adapt to the new environment but everything settled down well later.

I had a good experience teaching in that school for almost eight and half years after which I left and even to this day when I recollect those moments I become very emotional. It was a turning point in my teaching career. It gave me an opportunity to enhance my knowledge with new teaching techniques and gave me a lot of exposure to the new methods of teaching.

Memories are timeless treasures.

"Sometimes moments in life are so perfect you want to freeze frame them; capture them within your soul forever so they never fade away"

My memories are my allies, and they serve me as a guide to my past. In my case I have learned many things from my past in my life and also in JHPS.

My school JHPS had laid a strong foundation for me and they have built confidence in, brought out my creativity and helped me to come out of the

closed shell shed my shyness and face the world confidently and assist me in my overall development.

Time management & hard work are the tools for my success and one should have passion to achieve the goal.

My cherished moments

My unforgettable moment was when I visited Haridwar and Rishikesh. This was my first visit to these destinations and the highlight of the trip for me was a visit to river Ganga. Since I went with family, the significance was more on religious importance of these places. High on our agenda was bathing in the holy river

Ganga, attending the famous Aarti on the Ghats of Ganga in the evening at Haridwar and visiting "Laxman Jhula" and "Neelkanth Mahadev" temple at Rishikesh. Despite the fact that it was the scorching summer month of May, the water in the river Ganga was quite cold contrary to our expectations and it was really wonderful to bathe in it. This was really wonderful. The facilities for commuting, staying and eating were good. The place is famous for spices, woollen clothes etc. It was an extraordinary trip filled with the thrills and enjoyment to the core in the most pious abode of the Lord.

The Advent of Ascent

A journey of thousand miles begins with a single step...NOSTALGIC MOMENTS

With its humble inception in 1986, JHPS an organization active with the objective to inculcate quality education among its students in accordance with the latest classroom technologies and to provide ample opportunities for unfolding talents has come a long way and taken its rightful place amongst the top schools in the twin cities. The school magazine Ascent has been successfully instrumental in emblazoning events and news all along the year, subsequently promulgating vivid works of high standards. The magazine is a collective effort of effervescent reporters, journalists, editors, photographers and designers. Over the years from its beginning in 1991 the magazine has continuously evolved and taken the impressive shape that it is today. This, the 25th year, lustrous Silver Jubilee anniversary is a triumph which speaks volumes about this memorable journey of the magazine.

What it was ?

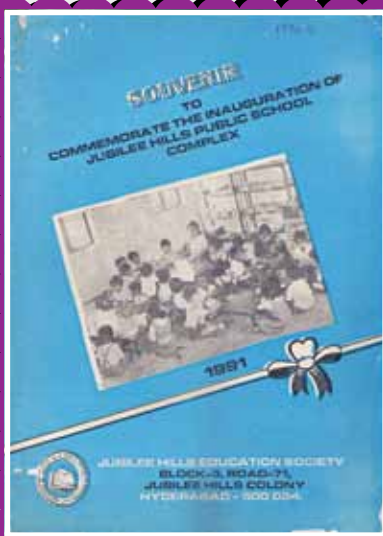

What it is now ?

This Magazine serves like a Year Book for the students of this school. It comprises of school events internal and external, messages ,articles, poems and fun corner that includes riddles jokes, puzzles and tongue twisters. There are a few pages on the important highlights and events of the past 25 years from the humble beginnings in 1991, till date - covering a span of 25 years of yeomen service. It also carries a few pages with articles from Students and teachers.

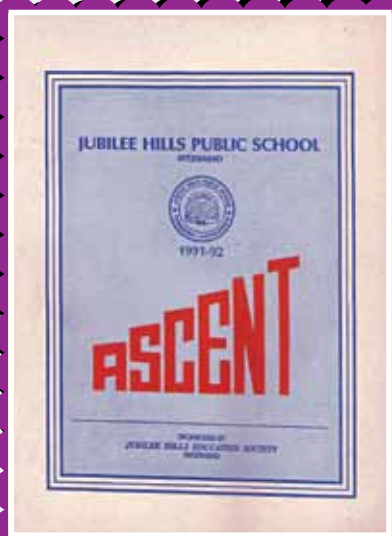

The school magazine " ASCENT " is a record that traces the growth of the school. It is a road map for the future generation of students about the traditions built up in their school. This valuable publication is a platform where students show their creative talent. To make the school interesting ,fun and worth remembering, the students are exposed to co-curricular and extracurricular activities. This school magazine serves as a window to the activities of the school.

A man wanted to become a monk so he went to the monastery and talked to the head monk.

The head monk said, "You must take a vow of silence and can only say two words every three years."

The man agreed and after the first 3 years, the head monk came to him and said, "What are your two words?"

"Food cold!" the man replied.

Three more years went by and the head monk came to him and said "What are your two words?"

"Robe dirty!" the man exclaimed.

Three more years went by and the head monk came to him and said, "What are your two words?"

"I quit!" said the man.

"Well," the head monk replied, "I am not surprised. You have done nothing but complain ever since you got here!"

PARENT ORIENTATION

A school round up

An Orientation programme was conducted for parents on Saturday the 21st of June 2014 in the school. The Principal Ms. M Varalakshmi welcomed the parents and informed them about CBSE results, awards, scholarships, achievements and gave them an insight about the activities, infrastructure and facilities available in JHPS and the activities being conducted in the school. She also requested the parents to be a source of strength for children and make the best use of opportunities provided in the school for their children to excel.

The Academic Director, Ms. G. Sreedevi and Head of Jubilee Hills Skill Development Center addressed the gathering and

emphasized on skill based vocational Education to create critical thinkers and problem solving 21st century citizens. Ms.G.Durga, the Headmistress of Secondary wing and Ms. Sonia Nagpal the Headmistress of Pre-primary and Primary wing gave a detailed analysis of the CCE pattern followed in the school. They stressed that the school aims at the holistic development of the children. Activity integrated subject learning creates lifelong learners, team players and responsible citizens. Ms. Aarti, the student counsellor reminded the gathering that every child being unique, there is no room for criticizing or comparing them. She further said that students must be given an opportunity to enjoy life with full independence coupled with a good routine. Ms. Samatha, the kindergarten teacher, gave detailed information regarding activities, infrastructure and facilities of JHKS. The Orientation programme concluded with an open session held to address the various concerns of the parents.

VANAMAHOTSAV

GREEN EARTH, CLEAN EARTH

Vanamahotsav was celebrated in our school on 14th July 2014 in the school premises. The Principal, Ms. M. Varalakshmi welcomed the Chief Guest, Dr. Jalapathi Rao, Retired Former Registrar of Acharya N. G. Ranga Agricultural University. The Chairman, Sri A. Murali Mukund graced the occasion.

The Chief Guest, Dr. Jalapathi Rao in his speech appealed to everyone to conserve energy and natural resources for the present and the future. He also suggested that conservation

should be a lifelong process rather than a one day activity. He asked children to focus on this task as it is for their bright future.

The Principal, Ms. M. Varalakshmi stressed that Vanamahotsav, "the festival of trees" is very important as trees give us life, so we should protect nature and save earth. The Academic Director, Ms G. Sree Devi emphasized that we must pledge and campaign to save the greenery of Mother Earth so that we can pass on the greenery for the future generations.

A variety of cultural programmes showcased by the students conveyed the important message that conservation of trees should be taken up as a challenge by everyone to protect our life giving trees and ensure a bright future.

Murali Mukund welcomed and presented a memento to the Chief Guest. The Vice President of JHES, Sri P.Subba Rao graced the occasion.

The programme commenced with the welcome address given by the Principal, Ms. M. Varalakshmi. In her address, she said that a leader should follow the 3'Vs' policy-Vision, Values and Victory. A leader with a Vision imbibed with Values will surely achieve Victory.

The Chief Guest in his speech congratulated the newly elected Student Council members. He said that Leaders are not born, they are made. He also mentioned that "Education is the mother of leadership" and asked the newly elected leaders to imbibe the qualities of acceptance of responsibilities, willingness to take risk, ability to lead and develop the team with integrity and vision.

The Academic Director, Ms.G Sree Devi, said that the quality of a leader reflects in the standard that they set for themselves. She also said that from now on the various responsibilities like organizing school programmes and encouraging fellow students lie on the firm shoulders of the elected leaders.

PARENT TEACHER ASSOCIATION MEETING

Adapting and catering to the varied needs

Our School organised the Annual PTA meeting on 26th July for classes LKG to XII. The programme started with a prayer to invoke the blessings of the Almighty. The Principal Ms.M.Varalakshmi welcomed the parents and apprised them of the school's progress in various activities, the facilities provided and the CBSE results of classes X and XII. The main objective of the PTA meeting is to collaborate with parents and be committed towards the development of the child. Parents were asked to share their views and suggest some measures for the development of the child and school.

Ms. G. Sree Devi, the Academic Director briefed the parents about the latest trends in teaching that emphasizes on less teaching and more learning through activities. The goal of education is to shape the global citizens of the future by adapting and catering to the varied needs of the students. She said that parents are the partners in their child's learning, and with their support and involvement children do much better. She stressed on the point that 'Success is 1% inspiration and 99% perspiration'. Teachers along with parents can inspire students towards achieving their goals.

Ms.Aarthi.T, the Counsellor, felt that the physical, emotional and nutritional well being of the child must be the main focus of parents as every child is unique, skilled and beautiful in their own way. She advised the parents to understand the psychology of the child and take professional help if required to address serious issues. The Parent Representatives for classes KG to XII were elected and a few of them will represent in the School Managing Committee (SMC), Safety, Grievance, Sanitation, Transport, Discipline and External Competitions Committees for this academic year.

The Chief Guest, Sri Kode Satyanarayana, President, Jubilee Hills Education Society, the distinguished Managing Committee members of Jubilee Hills Education Society, parents, staff and students graced the occasion. The Chief Guest, Sri. Kode Satyanarayana unfurled the National flag. The programme started with a patriotic song 'Vandematram'.

The Chief Guest in his motivational speech said that, this 66th Republic Day marks a historic day in Indian history as the world has now started recognizing India as a mature developing nation. People of India have unanimously elected a strong government and all of us can foresee a golden period. The present generation pursuing higher education and looking for innovative jobs and professions can find ample opportunities in the upcoming years. He advised the present generation not to get into any bad habits which can hinder the progress of our nation. Only when the next generation has good health and proper attitude can our nation improve, he said. He also reiterated that, this responsibility of nurturing good citizens lies in the hands of the teachers and parents.

The Principal, Ms. M. Varalakshmi welcomed the gathering and wished everyone on the occasion. In her inspiring speech, she said, "Republic day brings warm greetings to each and everyone in the nation and it represents the true spirit of India. The patriotic fervor on this day brings the whole country together." She gave a special mention about India still not being free from illiteracy, corruption, terrorism, poverty etc. and that the campaign 'Swachh Bharat' does not just mean clean India but also pure and pious people who would keep away from all the negative aspects that still prevail in India.

A lively cultural programme with patriotic songs, dances and a few sports events mesmerized the audience and infused a feeling of patriotism amongst the students. The programme concluded with a prize distribution by the Chief Guest. Along with the prize distribution for Sports, the best programmes of Annual Day were also awarded. 'Monsoon Rhythm' was awarded the best dance and the Teacher in charge, Ms. Sandhya Mol received cash prize. RISE AND SHINE WITH MORNING ASSEMBLIES

School assemblies are one of the most important elements of the school curriculum. A well planned assembly can contribute greatly to academic and behavioural excellence in any school. Assemblies provide a calm, settled start to a day of learning. School assembly fosters a sense of community and a positive ethos. Students learn, among other things, cooperation, honesty, respect for self and others, diligence, perseverance, punctuality, the importance of excellence in all school activities, respect for rules and they are given moral and spiritual guidance for everyday life as well as an awareness of pressing social issues.

FESTIVALS & FESTIVITIES

Celebrating festivals help us to connect with the cycles of nature and establish a yearly rhythm for our children. Through these festivals, the school cultivates a community among children, teachers, parents and friends. Celebrating festivals also help children understand our rich cultural heritage and build religious tolerance.

JHPians eagerly anticipate each festival as these celebrations mark the rhythm of the year.

PARENTS' DAY

"Follow your dreams and aspirations, but listen to your parents. Live your life to the fullest, but respect your parents' guidance. Make decisions according to your beliefs, but honor your mother and your father. Your life is an extension of your parents. Live it with respect, dignity, trust, and love." ~Alvaretta Roberts

Parents make a family, which forms the first institution of love for a child. It is the first school for a child where he learns the values of life. A child is just like the potter's soft clay which can be given the desired shape. The moulding of the child depends entirely on his/her parents. The shaping of the child for the future and inculcating the values of leading a life is the duty of their parents, which they fulfill throughout their life.

The Parent day in Jubilee Hills Public School is marked by grand celebration. It is a day for the children to make their parents feel how grateful they are for having such lovely parents. On Parents Day, children try to do various things to make their parents feel special and proud. This year each class of our Primary section celebrated Parent Day to thank and acknowledge parents for all that they have done for their children.

The Parent Day was started with an objective to bring each student on the stage either as a speaker, performer, dancer, singer or an orator.

JENESYS- A TRIP TO JAPAN

JENESYS is an exchange programme which invites youth from overseas to Japan every year with a view to promote mutual understanding and friendship with Japanese youth and citizens.

The program aims towards the revitalization of the Japanese economy, increasing visitors to Japan and at the same time, promoting global understanding of Japanese values. The program also helps to lay the foundation for the future bond among the youth of Asia and Oceania countries, along with mutual understanding and friendship.

On 2nd June 2014, a group of ten students and one teacher supervisor, Ms. G. Durga left India to visit Japan. They represented our school in the youth exchange programme, JENESYS 2.0 (Japan-East Asia Network of Exchange for Students and Youths)

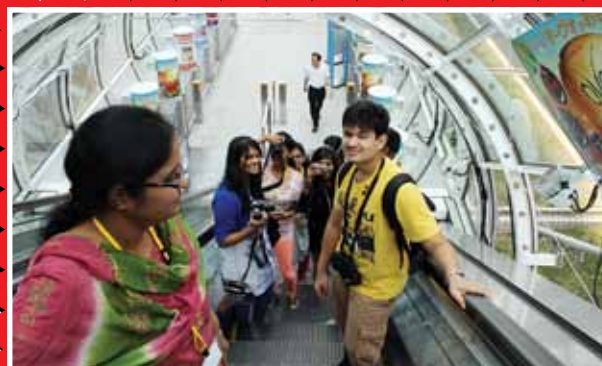

In Japan the students first visited the museum called Maranian where, they witnessed advanced Japanese technology. For example, they could see their DNA on the screen after placing an arm on a machine in the space provided.

They also visited Kochi. This city is the political, cultural, economic, and trading center of the country. From there the student went to meet the Educational Department officers. One of the students introduced our team to the Officers. The Japanese spoke in their language. An Australian translator translated the speech. The students had a very interactive session with them where they were told about the different places in Kochi, their culture, festivals etc. From there they went to Katsura - hama Beach which is famous for the pleasant contrast between the pine tree forests and rocky coastal scenery.

The next place that the students visited was the paper industry where they made paper called "Washi". All of them made two sheets of paper out of pulp. It was an amazing experience. Then they visited a school. There they met the Principal and faculty. Here all the students were divided into groups. They participated in club activities, shared work and exchanged their views with each other.

After that they arranged a meeting with Home stay families and two people were assigned to each family for Home stay. Our students stayed in their house for two nights and a day. They took them out to different places like the castle, temple, botanical garden etc. At dinner, our students exchanged news about our country, culture, food habits, festivals, different places etc. For dinner our students made some dishes for them and they enjoyed our spicy curries and chutney. The next day a farewell party was organized for all the visiting students.

On the Seventh day, our team left Kochi for Tokyo. After lunch, all the three groups had a meeting with the Japanese Government officials. The students of the three groups made their power point presentations. The officials praised our students and gave certificates to all the students and coordinators. On the eighth day our students' returned to India. The students thanked the School Management for giving them this opportunity to take part in this programme which has gone a long way in making them aware of the Japanese culture.

NIE INTERNSHIP

Meghna of Class X attended the Times of India NIE 5-day internship on journalism conducted from 29th April 2014 to 3rd May 2014. Students from many schools attended the internship. On the first day, everybody introduced themselves and were assigned to work in groups. The second day, the interns gathered information and designed or organized their article. The third day editing of their articles was done. The fourth day they learnt about the different activities in journalism and had an interesting activity designing the cover page of a newspaper on the topic 'Mars'. The fifth day they were taken to the Times Of India printing press in Nacharam and were enlightened on the complete procedure of printing a newspaper. It was truly an amazing and enriching experience. The interns had an interactive, enjoyable and fantastic time during the internship.

PRESS VISIT

The students from Journalism Club of our school were taken on an informative tour to the Economic Times Press at Nacharam on the 2nd of January, 2015. The visit was aimed at providing future journalists an opportunity to experience working in a newspaper press. The engineers and staff were very helpful and patient in answering all the queries posed by our students. The senior engineer, Mr. Radha Krishna explained in detail the various processes involved in the printing of a newspaper. The various stages like the production, printing and transport of the paper rolls used for printing made the students aware of the magnitude of work involved in the printing of a newspaper. Students were made aware of "How a newspaper is printed every day". The visit proved to be enriching for the students as well as the teachers who had accompanied them.

NIE WORKSHOP

Our students attended a workshop conducted by The Times of India on the 15th of July. In the workshop the students discussed and got to know how to write a good newspaper story and the characteristics that is good. The students were given a paper on which they had to write what their likes and hobbies were. Then they were tested on how to write a good story. Next, they were given a picture and had to write an article based on it. The workshop was informative and enjoyable. The students were looking forward for more of such session.

VISIT TO BIRLA PLANETARIUM AND SCIENCE MUSEUM

The students of class VIII visited the Birla Planetarium and Science Museum on 2nd August 2014. First they went to the planetarium. A wonderful show about the Solar System was viewed by the students. It showcased various stars, constellations and the history of solar system. The ceiling was beautifully illuminated with twinkling stars. The students saw the past and the future of the Solar system.

In the museum, they had a look at some of the finest sculptures, vases and pictures carved out of wood and painted with superb shades of colours. Many models related to gravity and illuminations such as the three laws of Newton, centre of gravity, oscillating pendulum, etc. also captured students' attention. The most awaited part of the visit was the Dinosaurium which houses the remains and fossils of the dinosaurs. The centre of attraction was an entire skeleton of a Dinosaur with its tail length reaching almost 15 feet. It was an educative and joyful experience for the students and an opportunity to learn something new and understand it in an enhanced manner.

FILM-IT Workshop

The Heritage Education and Communication Service (HECS) organization conducted a workshop on short film making in our school, in which more than 8 schools participated. The Principal, Ms. M. Varalakshmi welcomed the FILM-IT crew and handed over the mike to the Principal Director, Ms. Purnima Datt. She introduced herself and put forth the aims and objectives of their organization.

FILM-IT is a multi-cultural project that aims at nurturing cultural understanding, care and concern amongst school children through the exciting experience of making and sharing films. It helps them to understand the physical and cultural environment in which they live and the contributions made by different cultures and communities.

FILM-IT has designed many themes to enable students to make short films which would develop their respect for all cultures in India. In the workshop, Ms. Anuradha Reddy, Convenor, HECS motivated the students to make short films and gave them important suggestions on how to go about making a short film. The students were informed that a few selected short films will be shared through the internet with school children in the UK.

The Film Directors, Mr. Rintu Thomas and Mr. Sushmit Ghosh who were present on the occasion, trained the students on directing short films. They were advised to work together to save the rich heritage of the country through works of art. It was an enriching experience for the students.

FIRST AID WORKSHOP

Our school believes that its students should be able to lend a helping hand whenever they witness health emergencies or accidents. Thus a First Aid workshop was conducted in the school premises on 4th September 2014, by Dr. Akshay Bhargav, Dr. Tarang Singhal and Dr. Syed Reza Askari Hasan from Apollo Hospital, Jubilee Hills to spread awareness among the students. They demonstrated the steps to be followed while rescuing a person during a medical emergency and exhibited these with the help of models.

After the explanation about Cardio Pulmonary Resuscitation (CPR), the students had an interactive session in which they were divided into four groups. Each group had one doctor to guide them and teach CPR practically. A few volunteers were asked to do CPR on the model with the doctors' guidance. The practical experience is useful to the students in their life. The students were also shown how to stop a person from choking. The session was very informative and inculcated confidence in the students to help people who are in danger in the right way and at the right time.

GENDER SENSITIZATION A WORKSHOP

The Health and Wellness Club of our school organized a "Gender Sensitization" workshop for the students of Class IX and X on 1st July, 2014. The workshop was conducted by Ms. T. Aarti, the school counsellor. She emphasized on the need for gender sensitivity among the youth for a better and safer society and that sensitization towards gender should start from an early age.

The workshop aimed at raising awareness on gender issues and help boys and girls do away with prejudices in order to be better human beings in the future. It started by addressing the basic definition of gender and how the term often gets intermingled and confused with sex. Once a basic understanding of gender was established among the audience, the speaker adopted an active participatory approach involving participants in dynamic exercises and brainstorming sessions. The videos shown during the session beautifully illustrated how boys and girls are unknowingly conditioned from a very young age that makes them pick up and internalize gender roles. The Social Concept of Gender was discussed in detail with plenty of examples, which relate to both males and females and not just women. The students learned through various examples how the social concept of gender furthers the erroneous positioning of women, as opposed to men, into specific realms that are claimed

Interacting with the students

to be suitable for their respective natures. This in turn assigns automatic roles and imposes certain expectations on both sexes based on inadequate social beliefs.

Participants were led through various debates that revealed how the passive distinction between men and women based on gendered notions has often resulted in increased levels of poverty, poor economic performance, high incidents of HIV/AIDS, and inefficient systems of management and governance. The need to develop a society, free of violence through gender sensitization was highlighted throughout the workshop.

The workshop successfully managed to trigger key gender issues that had been imperceptible to many students.

SAFE DRIVE SAVES LIFE ROAD SAFETY

Honda Motor Cycle and Scooter India Private Limited conducted a workshop on Road safety rules and understanding traffic signs in our school on 27th November 2014. A quiz programme was organized for the children on traffic signals and signs. Prizes were distributed to the winners as a mark of appreciation. The students were made aware of the reasons for road accidents and the importance of using helmet while riding. The students were given an opportunity to use the simulators which provided the knowledge about where attention should be focused while riding.

MISSION EXAM BEATING EXAM STRESS

Horlicks Pvt. Ltd conducted a workshop 'Horlicks Mission Exam' for the students of class VIII in the school auditorium. The workshop was aimed at helping students concentrate on studies during exams and beating exam stress.

Students took part in the activities conducted by them. They were told about the necessary skills required to cope with exam stress and the importance of a healthy mind and body for improved academic performance.

LEARNING GETS REAL LEARNING EVENTS

LEARN ACTIVE – Learning gets real, activity based programme was conducted in our school on 2nd December 2014. These sessions were for the students of class IX. In this workshop, two topics were covered. The first topic was HELIX and the other was Tsunami.

HELIX: The session started in the morning. Ms. Surabhi & Mr. Srikanth explained about DNA and its importance, history of DNA and DNA finger printings to detect the crime. Several activities were conducted to make the session very interesting.

A few of the activities were - Extraction of genetic materials (Mixture of DNA, RNA and Proteins), making an edible DNA model, which helped explain about the bonding, linkages etc. and DNA detectives. In this activity the students were divided into groups to investigate the crime and conclude the case by detecting the culprit with all possible reasons. Ms. Surabhi also discussed about the genetic diversity, DNA replications and applications of DNA in various aspects. This program helped the students to understand the detailed structure of DNA.

Working as a team

Investigation from the scene of crime

TSUNAMI: Ms. Chitra and Mr. Krishna Murthy demonstrated about the difference between wave & tsunami and gave a brief history of tsunami. They conducted three activities with students. The activities were:

- Identification of the statements given on the chart on the basis of definition of tsunami, causes, effects, characteristics, difference between ocean wave & tsunami wave.
- To find the relation between depth of the ocean and speed of the wave. For this activity the students were given aquarium-glass rectangle slab, wooden block, stop watch and a calculator. On the basis of these activities they guided the students to make a graph.
- Drawing graph between depth of water & speed of wave. They also explained the connection between tsunami & Mathematics.

Additional information on how to predict a tsunami, how to save oneself from a tsunami when one is in a boat or on the sea shore was also provided to the students. This program helped the students to understand how waves are created, consequences of a tsunami and measures to be taken if a situation like this arises. Overall this was a very good learning experience for the students as well as the teachers.

ELT WORKSHOP

A workshop on ELT was conducted on 31st October '14, by Ms Mala Palani, who has authored many books on different aspects of ELT and a teacher educator with the Galaxy Education System, Rajkot, Gujarat. She has over fifteen years of experience in teaching English in leading schools across the country. Apart from this she has acquired a Post Graduate Certificate in Teaching of English from CIEFEL, Hyderabad (EFL University now); a diploma from Cambridge in Teaching and Training (CIDTT) a Master Trainer Certificate from Cambridge. It was attended by Ms. Dipti and Ms. Nirmala.

The workshop was about the latest teaching methodologies and classroom strategies. The workshop started by the introduction of the Resource person by Mr. Srinivas Reddy from the Oxford University. He mentioned that it was the first workshop conducted by Ms. Mala Palani in Hyderabad. Ms. Mala Palani started the workshop by listing out the Agenda for the day. She started the session by asking if anyone had any queries. The teachers asked their queries one after the other which Ms Mala Palani recorded on the board. She said that she would answer all these questions in the course of the day. She started with an Ice – Breaker Activity on Homophones. She asked us to look around in the room and be with a person who you feel is beautiful and spend the rest of the day with him/her. The objective for this was to familiarize oneself with the people around. The Homophone activity started with a new person you get to know by solving 15 questions as quick as possible. The Learning Outcome for the activity was that it can be used in three ways:

- Introduce: which helps you to identify the student's previous knowledge.
- Reinforce: can be planned as a treasure hunt.
- Assessment tool: to test their learning.

During the course of the day the resource person gave us tips for effective classroom teaching. She said that while conducting an activity pairs can be made of two categories:

- Heterogeneous Groups
- Homogeneous Groups

The session was concluded by the OUP team's introduction of the new technologies by the pathway books, oxford publications. The OUP team showed the demo of the animated poems in the Cds. and many other new features for the teachers. The workshop was beneficial and informative as it exposed us to the latest teaching methodologies and classroom strategies.

WORKSHOP AGAINST CHILD SEXUAL ABUSE (CSA)

On 7th December '14, Ms. T. Aarti attended the Workshop against Child Sexual Abuse at FAPCCI – Red hills, Lakdikapool. The CSA workshop is the brainchild of Ms. Charu Sinha, IPS and the CID

– Government of Telangana. Her persistent efforts to combat CSA had started with distribution CSA awareness material and organizing a rally for 5000 students on necklace road followed by a training workshop for Principals and Counsellors. The workshop conducted at FAPCCI was attended by 150 counsellors from various schools across Hyderabad in addition to the Principals from various schools. The session had speakers who have been working effortlessly in preventing CSA; Asiya Shervani from People's combined, Padmaja Penmetsa – Life coach -Open minds, Ms. Aparna Shankar – Principal – Open minds and Ms. Charu Sinha IPS in addition to various NGO's such as Child helpline and Break the silence. The participating NGO's offered to conduct CSA awareness sessions for parents and students free of cost. The workshop educated counsellors regarding child sexual abuse through a series of discussions, power point presentations and healing techniques (for victims). Information pertaining to dedicated helplines, trainers and organizations that help in creating awareness and providing counselling for victims was shared in detail. Ms. Charu Sinha informed the counsellors to approach trained Child Welfare Officers that are now stationed at every police station in Hyderabad to report cases of CSA and obtain necessary help. Counsellors were also provided with education material comprising of specific information booklets designed for parents, teachers and students.

An important part of the program was identifying awareness programs to be conducted under the Child Sexual Abuse Monitoring Committee that is now compulsory for every school in the state of Telangana. The programs to be conducted at the school level were identified as the following

1. Awareness workshop for Teachers
2. Seminar for Parents
3. Awareness seminar for school sub staff – Security personnel, attenders, bus drivers and ayamma's (program should be conducted in Telugu to ensure ease of understanding)
4. Good touch and bad touch sessions for primary students (LKG to 5) and CSA awareness sessions for children from classes 6 to 10.
5. Display of CSA posters in common areas

A network of counselors was created on Google circles in addition to an e- mail group to keep all participating school counsellors and Principals informed about the developments and forthcoming protocols. Counsellors participating in the workshop would be identified as trainers for conducting awareness sessions and training counsellors in non-participating schools and Government schools in the future.

The workshop was a learning experience and provided a platform for counsellors to share information and knowledge related to combating Child Sexual Abuse.

O-LABS WORKSHOP

A workshop was organized by CIPS (Centre for Innovations in Public Systems) on innovative practices in ICT in Education on 28th January '15 at College Park Campus of ASCI. The session started with the introductory speech by Dr. Chakrapani wherein he emphasized the pivotal role the teachers played in emerging technological changes. He stressed on the need to be the best role model for the students.

The workshop then began with the introduction of O-Labs by Dr. M. Sasi Kumar Associate Director, CDAC Mumbai. The course repository for classes IX and X was discussed. It was mentioned that a total of 124 experiments were available in subjects such as Physics, Chemistry, Biology, Mathematics, English and in three languages i.e Hindi, Marathi and Malayalam. The main purpose of O-labs was specified, such as :

- Providing students with the ease and convenience of conducting experiments over the internet
- Flexibility to repeat

- Practice assignments
- Advantage for slow learners
- Interactive simulations which model real life situations
- Viva also present which will help the students prepare better.

Demonstration was also done by Mr. Manoj Kumar Singh, Project Engineer in all the subjects. It was also mentioned that the use of O-labs is free.

The session continued with presentations by Mr. M.Rajaiah-Mandal Education Officer, Karimnagar and Mr. D. Anjaiah-Mandal Officer from Medak District. They presented the topics "Improving the quality of Government schools and Regaining Public trust" and " Education for out of school children" They shared their experiences regarding the progress they have brought in the lives of tribal children by providing them with education.

The session on the whole was informative and inspiring. The workshop was attended by Ms. P. Sridevi, Ms. Dhanya, Ms. Vijayalakshmi and Ms. Sharmila.

Mr. U.V.Mohan Vamsi was the Resource person who enlightened the teacher on Music Therapy - "For - Brain, Body & Soul" and how to create more interest in Music classes. He spoke on the use of music as therapeutic agent and stressed on the benefits of music therapy. According to him the benefits of Music Therapy are many which includes the following:

- It acts on our mind before being transformed into thought and feeling.
- Is an important tool in the treatment of both psychological and Psychosomatic disorders
- It stimulates good vibrations in the nerves of the listeners.
- Brings about a sense of mental well being in individuals. Enhances the concentration level of children.
- Improves the capacity of planning.

Music training helps to express refined exhibition of emotions and clarity in cognition too. It was an informative and interesting session.

DEPT. OF LIBRARY

In-service training for the Department of Library was conducted on 6th June 2014. The resource person, Dr. M. Koteswar Rao, Retd. Librarian, University of Hyderabad conducted the session for library staff on 'Role of library in Teaching Learning process'. The following points were discussed in the session.

- Teacher – Librarian collaboration is necessary for teaching learning process in the school.
- Teachers should have the list of books available in the library.
- Read Aloud sessions for primary classes can be conducted in the library.
- Library need not be the silent zone any more. Students can be allowed to discuss on different topics in the library.
- Borrowing period for students can be increased up to 2 weeks so that they can complete reading the book.
- Number of books issued to students at a time can be increased to two.

- Activities can be conducted for students on important days in the year.
- Visit to other libraries can be arranged for students.

The session was interesting and informative and the teachers were motivated and assured to implement these ideas in their library classes.

DEPT. OF ENGLISH

The In-service training for English Department was held on 4th June, 2014, on Communicative skills and Group Discussions. It was conducted by Dr. Jahnavi Reddy who is a Professor in Narayanamma Institute of Engineering and Technology for girls. She suggested a

number of ways by which one can make the students speak up. The various ways are as follows:

- Portfolio writing
- Extempore speech or impromptu
- Description about oneself
- Debate

Group discussions play an important role in communicative skills and should be included in lesson plans. This helps in developing positive qualities in the students. Some of the qualities are:

- Leadership qualities
- Patience
- Turn taking

She then went on to explain Group Discussions in a detailed manner. A group discussion, role play was also conducted for the teachers to understand. She emphasized that in competitive exams a student is assessed on how he/she participates in the group discussion and whether he/she contributed actively and gave positive inputs. For a student, the feedback of both the teacher and the peers are important. The session was interesting and informative and all the teachers were motivated to implement these ideas in their classroom teaching.

DEPT. OF TELUGU

The In-service training for Telugu Department was conducted on 4th June, 2014 by Ms. P. Madhavi, SCERT (Telugu Syllabus Committee). It focused on following the CCE pattern and implementing it in the lesson plans and the year plans. She emphasized that the textbooks are designed according to the appropriate age levels of the learners. Period allotment and question paper preparation should be done accordingly. Activities were conducted to show how teaching can be made into a fun-learning process. Teachers' queries were addressed towards the end of the session.

The In-service training for Hindi Department was held on 3rd June, 2014. It was conducted by Ms.G.Kiran, M.A, B.Ed, State Resource person for teachers training, S.C.E.R.T HYD. AP. It focused on eliminating Rote Memory system and increasing activity based learning system, so that; learning second languages become more interesting.

She suggested various ways to make learning interesting such as:

- Teachers should keep in mind the prevalence of multilingualism in a class while preparing lesson plans. Children should not be stopped from answering in their mother tongue rather their concepts should be given more importance.
- Children should be given the freedom to express their ideas
- Teaching Hindi should not only be for the language but for the development of the Art and culture of Hindi.
- A video was shown as an example for the teachers to refer during the audio-visual classes.

Towards the end, Ms.G.Kiran emphasized that teachers duty is to increase the students interest towards this subject so that the future citizens can carry on this language with pride and can express their ideas as well in this language. Learning Hindi should not only develop the textual knowledge but the overall personality of the child as well.

DEPT. OF MATHEMATICS

The In-service training for Math Department was held on 4th June, 2014. It was conducted by Mr. B.V.S.S.Sharma MSc. a Professor in VSR and NVR College Tenali for 33 yrs, author of Mathematics books for PUC from 1963 to 1968, contract author of S.Chand Publishers for Inter, Degree, EAMCET and AIEEE.

The topics discussed and explained were Euclidean Geometry, Set, Axioms or Postulates, The concept of parallel lines, The concept of infinity, Linear equations. Few suggestions were also given to the teachers regarding the improvement in the performance of the child and also how to create interest in the subject. Teachers were asked to spend 4 to 5 hours teaching fundamentals so that the child is clear with the concepts. To provide prerequisites to the children regarding the subject. Make the children write the statements and make their fundamentals clear. Allow the child to solve the problem in different ways. Teachers doubts related to the subject were clarified. It was an informative and interesting session.

DEPT. OF SCIENCE

An in-service training for Department of Science was conducted on 7th June 2014. The resource person Mr. Samar Kumar Bagchi from Macmillan Education conducted the session on 'How a teacher can perform simple experiments related to concepts in daily teaching periods without taking children to laboratory'.

Mr. Bagchi first focused on the prospective of NCF and RTE in India. He then mentioned three aspects of science, learning and understanding:

1. Falsified by Karl Popper
2. Predictability of Science
3. Repeatability of Science

After discussing all these points, he started showing experiments which can be done in classrooms and gave explanation for each of them.

He gave information about Jean Piaget's educational psychology about a child's learning stages.

He also spoke about the education system 800 years

,back. He said that real teachers were those who verified the experiments on their own; others just follow them.

Towards the end of the session a role play was done by Mr. Bagchi and the teachers on understanding of rotation of the Earth and the moon. The workshop ended with a question-answer session.

DEPT. OF COMPUTER SCIENCE

The in-service training for Computer Science Department was held on 6th June, 2014, on challenges in computer science education in schools and effective teaching. It was conducted by B. Srinivasa Rao, Program Director, JKR Software.

Mr. Srinivasa Rao started off the session by saying that there is a leader in every teacher and teachers should set the goals for the students, set the vision, prioritize objectives and ensure that goals are achieved. He said that there are two types of students- first, who secure really good marks and second, teachers and students working together and securing marks. He enlightened the teachers about leadership by saying that a teacher being a leader, should always believe in his team and he should make the team understand that he believes in them. He also stressed on the following points for the computer science teachers.

- Training is the additional attribute necessary for a computer science teacher
- Computer science instruction should focus on problem solving and algorithmic thinking.
- Students must be enforced to adopt logical thinking in day-to-day life.
- Concepts should be taught independent of specific applications and programming languages. Proof of concept

should be an inseparable part of teaching.

- Students should be taught what will be expected from them in the "real world".
- Computer science instruction should include integrative and interdisciplinary knowledge.
- Teachers should motivate students to endure the rigors of traditional computer science programs by engaging students with exciting, accessible, and leading-edge courses.

Mr. Srinivasa Rao concluded the session by saying that computer science teaching is a blend of both art and science with management skills and technology skills. It was an interesting and informative session.

WORKSHOP ON VALUE EDUCATION

A workshop was conducted on value education by the Macmillan Publishers on 5th of June, 2014 by Ahona Bhattacharya, the head of Andhra Pradesh and Telangana area and is also a CBSE resource person. Macmillan has moved from being just a publishing house to something new – Macmillan Education; to understand young learners. Values education was brought forth through various activities throughout the day which demanded the participation of all the teachers divided in group, which included the following activities:

1. The people bingo
2. Role-play
3. Responsibility Tree
4. Paper and Book
5. Talking stick
6. Overcoming prejudice and
7. Debate

They also mentioned the fact that values should be added in the curriculum as per the decision taken by the UNESCO. Some of the values which Macmillan suggested teachers to inculcate in children were as follows:

1. Leadership qualities
2. Empathy
3. Respect; and
4. Overcoming prejudice.

The Macmillan suggested that values should be implemented in class and that teachers should encourage weaker children to strengthen their weaknesses. The teachers enjoyed the activities and were actively participating. This session also helped them to know their colleagues better.

WINDOWS 8.1 WORKSHOP

A group of members from JUANA Tech Tablet Academy headed by Mr. Osborne Terence D.Souza conducted a workshop on 24th January '15 in the school.

Mr. Osborne Terence DSouza introduced the teachers to Windows 8.1 version and gave hands on experience on how to use it. New terms were introduced such as tiles, charms, ribbons etc. and how explanation on each of them has to be used. The main purpose of Microsoft O365 was then illustrated as to how a teacher can make use of it for the benefit of the student. For eg. If the teacher wants to prepare a power point presentation, the special features such as recording videos, recording the teacher's own voice with the PPT can be done. The different features available such as File explorer, Bill locker and all Apps that can be uploaded were also demonstrated. The special features available in Microsoft word and Microsoft excel were well explained. The different assessments that can be conducted for the students and the methods of evaluating their performance were an added advantage.

The use of One note and also One drive –the online storage was well explained. A social networking site with the name YAMMER was introduced.

The session continued with the other team member introducing the Tablet Edutor which is a student friendly device. The content for all the subjects and for all the classes was uploaded helping the child by giving additional assistance. The availability of the videos and tests will help the child to perform better in his/her academics.

The session, on the whole was interesting and informative.

PRE-PRIMARY DEPARTMENT

An in-service training for the Department of Pre-Primary was conducted on 6th June 2014. The resource person Ms. Anita Khosla conducted the session on 'stories and rhymes'. She started her activity based session through demonstrations of various rhymes and story enactments. Ms Nalini enacted the story on 'Bhalu pakadne Jayenge' (The Bear Hunting) and also Ms. Anita Khosla enacted a story on 'The Thirsty Crow'.

Ms. Anita Khosla started the session by giving a PPT presentation on the objectives of storytelling and rhymes and emphasized the importance of the same in the lives of preprimary kids. She explained how the base education is important for an individual and how it helps a child to bloom into a beautiful flower with the right support in pre-primary level. She also insisted that pre-primary teachers should have the passion for teaching with no inhibitions to learn everyday and work towards holistic development of the child.

She divided the teachers into two groups and requested them to enact their respective stories. The first group presented a story on "The Cap seller and the monkeys" and the second group enacted "The Lion and the mouse". She concluded the session on the note that learning is a continuous process throughout the life.

STUDENT CENTRIC - STRATEGIC TEACHERS EMPOWERMENT PROGRAMME

The aim of student centric STEP is to empower teachers and enable a better teaching-learning system in the school. The following workshops were conducted in the school for the teachers, by the teachers.

- Making effective lesson plans
- Anger Management
- Active Learning
- Cooperative Learning
- Using technology effectively
- Creating stimulating yet enjoyable physical, mental and emotional environment in the classroom.
- Discovering one's potential as a teacher
- Understanding and developing high self esteem
- Developing and adding My creativity to my teaching
- Multiple Intelligence
- Varied Learning Styles
- Becoming the favourite teacher of children without being a pushover.
- Good qualities of a teacher

Teachers were assigned topics during the month of January by the HODs. They were judged based on their presentation and the teachers who qualified were asked to present in the Mini Auditorium. This enabled the teachers to enhance their knowledge about various topics.

These sessions proved beneficial for all the teachers. The workshops emphasized on the various facets of teaching and in the process our teachers upgraded their knowledge.

PREPARING TO PREVENT CHILD SEXUAL ABUSE A WORKSHOP

A workshop to prepare teachers on preventing child sexual abuse was conducted by Ms.T. Aarthi on 12th March, 2015 in the school premises. It started with Ms.Aarthi emphasizing on the crucial role a teacher plays in the life on an individual. After parents, it is the teacher who influences a child the most, and contributes to shaping of his other personality.

Child protection issues were discussed. It is alarming to see the number of cases increasing by the day. Child abuse occurs across socio-economic, religious, cultural, racial and ethnic groups. It cuts across gender, class, caste or ethnicity and happens to both urban and rural children.

It has a negative impact on the psyche of young minds as it usually takes the shape of hatred, terror and fear in the budding minds. It leads to the building up of anger, resentment, low self-esteem which further contributes to feelings of helplessness and humiliation and ultimately withdrawal or aggression.

In the exploitative and vulnerable situations children have to be protected and teachers were asked to help identify any such situation and do the needful. A child in any class may be a victim to abuse that happens outside the school. As responsible adults, it is not wise to ignore it.

Teachers were asked to be child friendly and adopt constructive disciplinary practices that respect the human dignity of children.

DEPARTMENT OF PHYSICAL EDUCATION

The in-service training for Physical Education Department was held on 6th June, 2014, on Sports Medicine. It was conducted by Dr.Sailesh, Managing Director of MAGUS CURO Rehabilitation Centre, Yella Reddy Guda.

He spoke about Sports Medicines which enhance the performance of a sports person as well as non sports person. In his terminology, Health is the physical, emotional, mental, social and religious state of an individual. He explained about the necessity of sports psychology. We have to accept the failure and analyse the faults and think of ways to overcome it. The recovery flow chart and the aspects and effects on an athlete's performance and recovery were also elucidated.

A brief session on injuries, treatments and selection of an athlete was taken up.

He emphasized on the importance of a proper diet. At the end of the session a demo on stretching exercises was given by Dr. Sailesh. It was an interesting and informative session.

MILESTONE MAKERS

EXTERNAL ACHIEVEMENTS

Pursuit of a hobby is an essential part of the school's curriculum. Ample opportunities are provided to each child to discover his/her area of interest. Effort is made in moulding and shaping the interest to enable a child to further excel in it. Students are given a platform to develop aesthetics, sharpen sensibilities, channelize their energy and ignite interest in various co-curricular activities.

AJMER TREKKING CAMP 2014 – 2015

Cadet Noorjahan Begum and Cadet G Vishnu Priya of Troop No 26 were selected to represent Andhra Pradesh and Telengana in Ajmer trekking camp centrally organized by Director General, NCC, Minister of Defence, Government of India from 2nd November to 20th November 2014.

Cadet Noorjahan Begum started on 2nd Nov 14 from Secunderabad for New Delhi and then she was taken from New Delhi to Jaipur in Rajasthan. Cadet Vishnu Priya could not attend the camp owing to ill health.

After reaching the Base camp in Ajmer, Cadet Noorjahan Begum along with the other cadets were directed to camp site - 2. They had to travel 10 to 12 km on foot till they reached their next destination. After reaching the camp a warm welcome was given to them by the people of the village. After lunch, they practiced for the National Integration Program which was to be performed at the end of the camp for Deputy Director General, NCC.

Many historical places like Fort, Shrine, temples etc were visited by the cadets to know about the historical importance of the region. They also learned about the life style of the local people who interacted with them.

Commanding Officer selecting the students

Commanding Officer being interviewed by the students

During this academic year 2014-2015 our cadets went to the Annual Training Camp where they learnt how to survive in extreme conditions and about current affairs. They were trained in handling a weapon, Map Reading, Field and battle craft, Sports and Games. In the camp our cadets won 1st place in the Tent layout competition.

CO Visit to JHPS

This year the Commanding Officer Col. R. Chopra visited our school with regards to the enrollment of new cadets from class

VIII. The criteria for selection of the cadets were based on the Height, physique and knowledge about National Cadet Corps.

He recommended that we conduct classes and selection of cadets for different competitions such as Thal Sanik Camp, Mouvlankar, Republic day Camps, etc where the cadets if selected perform better at a higher level.

Cadet Sai Sree and Cadet P Chaitra interviewed the Commanding Officer Col. R. Chopra of 2 (A) Bn NCC and asked many questions regarding what

motivated him to join the Army and what was his opinion about our school's cadets and the infrastructure given to the cadets.

He conducted Physical fitness test and after that he asked a few questions to the newly enrolled students.

Role of Cadets during National festival and School Functions

The cadets are involved in March Past, Guard of Honour and are assigned the duty of distribution of refreshment and maintaining discipline among the students.

CLUBS

QUIZ CLUB

Quiz club was initiated with a view to encourage children to be more inquisitive and sharpen their quizzing skills. Students from Classes VI to VIII were selected through screening test and classes were conducted after school hours. Classes are held thrice a week. These included English, Mathematics, Science and Social Science. They are trained for various quiz competitions and General Knowledge Olympiad competitions. All the training and the hard work of the concerned students paid off brilliantly when they won the 1st place in the Inter school competitions 'Ignited Minds' held in our premises. Quiz club maintains an exclusive library with Quiz books and journals. Students are free to utilize these resources.

DEBATE CLUB

The Debate Club was initiated with a view to develop the communication/speaking skills of the students and also to help them think critically, logically and objectively. A screening test was conducted for students of classes VII to XII and selections were based on their performance. Classes were held twice a week after school hours. The students were given training in debating skills. They debated on various topics and learnt the rudiments of debating. They participated in various competitions and won the 1st place in 'Ignited Minds' an inter-school competition held in our school.

HEALTH AND WELLNESS CLUB

The Health and Wellness Club conducted various activities and workshop for the students and teachers to build awareness and update the school fraternity about certain important issues and trends. This year the Student Counsellor cum Co-ordinator of the club, Ms. T. Aarti covered the following topics in the workshops.

WORDS OF APPRECIATION

Dear Varalakshmi Madam,

We are pleased to inform you that our son POURUSH SOOD , who had topped in your school in class X (2013) has got admission in B.Tech. Industrial and Systems Engineering at IIT Kharagpur. We extend our heartiest gratitude to everyone at the school who had contributed to his holistic development under your able guidance. Four years spent at your institution were the best school years for both our sons POURUSH and HERSCHEL. A special thanks to Ms Parvathi whom Pourush regards as his mentor and all the other teachers who taught him. We have moved to Delhi else we would have come personally to thank you.

Regards,
Deepak Sood & Ranju Sood

FELICITATION OF Ms. N. PADMINI KRISHNA KUMARI

ये दुनिया अजब है

- गरीब दूर तक चलता है — खाना खाने के लिए ।
अमीर दूर तक चलता है — खाना पचाने के लिए ।
 - किसी के पास खाने के लिए — एक वक्त की रोटी नहीं ।
किसी के पास खाने के लिए — वक्त नहीं ।
 - कोई लाचार है — इसलिए बीमार है ।
कोई बीमार है — इसलिए लाचार है ।
 - कोई अपनों के लिए — रोटी छोड़ देता है ।
कोई रोटी के लिए — अपनों को ही छोड़ देता है ।
- ये दुनिया भी कितनी निराली है ।

सर्कस

सर्कस की शुरुआत ईसा पूर्व तीसरी शताब्दी में रोम में हुई थी। तब सर्कस का सबसे रोमांचक खेल हुआ करता था- एक वृत्ताकार मैदान में रथ दौड़ाना। वास्तव में इसी वृत्ताकार मैदान को सर्कस कहा जाता था। जहाँ तक आधुनिक सर्कस की शुरुआत की बात है तो यह इंग्लैंड में सन् १७६८ में फिलिप एस्टले नामक एक अंग्रेज़ के द्वारा हुई। १९ वीं शताब्दी तक पूरी दुनिया में सर्कसों की शुरुआत हो गयी थी।

चाचा नेहरू प्रेरक प्रसंग

- बात उस समय की है जब जवाहरलाल नेहरू किशोर अवस्था के थे। पिता मोतीलाल नेहरू उन दिनों अंग्रेज़ों से भारत को आज़ाद कराने की मुहिम में शामिल थे। इसका असर बालक जवाहर पर भी पड़ा। मोतीलाल ने पिंजरे में तोता पाल रखा था। एक दिन जवाहर ने तोते को पिंजरे से आज़ाद कर दिया। मोतीलाल को तोता बहुत प्रिय था। उसकी देखभाल एक नौकर करता था। नौकर ने यह बात मोतीलाल को बता दी। मोतीलाल ने जवाहर से पूछा, "तुमने तोता क्यों उड़ा दिया।" बालक जवाहर ने कहा, "पिताजी पूरे देश की जनता आज़ादी चाह रही है। तोता भी आज़ादी चाह रहा था, सो मैंने उसे आज़ाद कर दिया।" मोतीलाल बालक जवाहर का मुँह देखते रह गये।
- बात उस समय की है जब एक कार्यक्रम में एक छात्र ने जवाहरलाल नेहरू से ऑटोग्राफ लेने के लिए अपनी कॉपी उनकी ओर बढ़ाते हुए कहा, "इसमें सिग्नेचर कर दीजिए।" नेहरू जी ने उसमें अपने दस्तखत अंग्रेज़ी में कर दिए। छात्र को पता था कि नेहरू जी आमतौर पर हिन्दी में ही हस्ताक्षर करते हैं। उसने पूछ लिया, "आप तो हिन्दी में हस्ताक्षर करते हैं। फिर मेरी कॉपी में आपने अंग्रेज़ी में किए, ऐसा क्यों?" नेहरू जी मुस्कराते हुए बोले, "भाई, तुमने सिग्नेचर करने को बोला था, हस्ताक्षर करने को नहीं।"

पापा क्या हुआ ?

अरे ! कुछ नहीं बेटा तेरी मम्मी से कहासुनी हो गई।

पता है पता है पापा ,मम्मी ने कहा होगा और आपने सुनी होगी।

राजू - पापा ! हिंदी हमारी मातृभाषा क्यों है ? पितृभाषा क्यों नहीं ?

पापा -हिंदी क्या बेटा, कोई भी भाषा पितृभाषा नहीं क्योंकि किसी माताजी ने किसी पिताजी को बोलने ही नहीं दिया।

साधु- बच्चा सौ रुपए दे दे तुझे स्वर्ग मिलेगा।

बच्चा - ठीक है बाबा , मैंने आपको दिल्ली दे दी।

साधु- अबे दिल्ली तेरी है क्या , जो मेरे नाम कर दी।

बच्चा - तो स्वर्ग क्या आपके डेड का है जो मुफ्त में प्लॉट बाँट रहे हो।

-एक दोस्त - यार ! ऐसा क्यों लग रहा है कि तू सारी रात नहीं सोया।

दूसरा दोस्त- हाँ यार ! मैंने कल ही सुना कि ज़िंदगी चार दिन की है और मैंने रीचार्ज तीस दिन का करवा लिया।

भोलाराम ने कॉल सेंटर में कॉल करके कहा- इंटरनेट काम नहीं कर रहा है।

अफ़सर- जी my computer पर डबल क्लिक कीजिए।

भोलाराम- जी मुझे तो आपका कंप्यूटर दिखाई नहीं दे रहा।

अफ़सर- जी नहीं ,आप समझे नहीं on your computer. My computer पर डबल क्लिक कीजिए।

भोलाराम- जी मैं अपने कंप्यूटर से आपके कंप्यूटर पर क्लिक कैसे कर सकता हूँ?

अफ़सर- जी ध्यान से सुनिए - on your computer एक icon है my computer. उस पर डबल क्लिक कीजिए।

भोलाराम - अजी आपका कंप्यूटर मेरे कंप्यूटर पर क्या कर रहा है।

अफ़सर- अपने कंप्यूटर पर ही दो बार दबाइए।

भोलाराम - क्या दबाऊँ दो बार।

अफ़सर- my computer.

भोलाराम - ओ पागल इन्सान। मुझे अपने ऑफ़िस का पता बताओ। वहीं आकर तुम्हारे कंप्यूटर को दबा देता हूँ।

एक औरत coma में चली गई। उसे मरा समझ कर पति तथा परिवार वाले शमशान की ओर चले।

रास्ते में अर्थी उठाने वाले खंभे से टकरा गए तथा पत्नी उठ बैठी। कुछ महीनों बाद पत्नी सचमुच मर गई। पति बस एक ही बात दोहरा रहा था " खंभा बचा के भाई , खंभा बचाके।"

पति से पत्नी उनके जन्मदिन पर - आपको क्या गिफ़्ट दूँ ?

पति - बस तुम मेरी थोड़ी इज़्ज़त किया करो ,किसी के सामने मेरा अपमान मत किया करो , घर के कामों में मेरी थोड़ी मदद कर दिया करो।

पत्नी- (थोड़ा सोचकर) नहीं मैं तो गिफ़्ट ही दूँगी।

बेटियाँ

ओस की एक बूँद सी होती हैं बेटियाँ ,
स्पर्श खुरदरा हो तो रो देती हैं बेटियाँ ।
विधि का विधान है, दुनिया की रस्म है
मुट्ठी में भरे नीर सी होती हैं बेटियाँ
रोशन करेगा बेटा बस एक ही कुल को ,
दो-दो कुलों की लाज तो रखती हैं बेटियाँ
कोई नहीं है दोस्तों , एक दूसरे से कम ,
हीरा अगर है बेटा , तो सच्चे मोती हैं बेटियाँ ।।
प्यार की सजीव कहानी होती हैं बेटियाँ
सुख-दुख में सदा साथ निभाती हैं बेटियाँ ,
बेटा जो दूर छोड़कर जाता , कमाता है रोटियाँ
माँ-बाप के आँसू पोंछने आ जाती है बेटियाँ ।
माँ के दिल की हर बात को जाने हैं बेटियाँ
मारो न इनको ज़िंदगी देती हैं बेटियाँ
माँ, पत्नी, बहन ,बहू -बेटी बन परिवार
को हैं थामे बेटियाँ ।।

ज़िंदगी जीने के लिए

बोल सको तो मीठा बोलो
कटु बोलना मत सीखो ।।
बता सको तो राह बताओ
पथ भटकाना मत सीखो ।
जला सको तो दीप जलाओ
दिल जलाना मत सीखो ।।
कमा सको तो पुण्य कमाओ
पाप कमाना मत सीखो ।।
पोंछ सको तो आँसू पोंछो
दिल दुखाना मत सीखो ।।
हँसाना है तो सब को हँसाओ
दूसरों पर हँसना मत सीखो ।।

चिड़िया रानी

कभी इस पेड़ तो कभी उस पेड़ पर
सदा फुदकती चिड़िया रानी ।
कभी न थकती , कभी न रुकती ,
ये चिड़िया की मीठी बानी ।
जंगल-जंगल नदियाँ -झरने
पीती जी भर बहता पानी
इसके स्वास्थ्य की यही कहानी ।
पर कैसे तुम-सा खुश होऊँ
ज़रा बताओ चिड़िया रानी ।
हँस के बोली चिड़िया रानी ।
लालच छोड़ो ,छोड़ो चिंता
मेरी गर ये बात जो मानी
तुम भी मुझ जैसे खुश हो लो
छोड़ो अब अपनी नादानी

बादल

आए - आए बादल आए ।
काले -काले बादल आए ।।
खूब-सा पानी लाए बादल
गड़-गड़ से दिल दहलाएँ बादल
फिर नन्ही बूँदें बरसाएँ बादल
धरती को खूब नहलाएँ बादल
सारी धूल पोंछ-पोंछ कर
माँ से ये दुलराएँ बादल
छप-छप कूदते बच्चों को
देख कर मुसकाएँ बादल ।
कुछ लोग आनंद लें महलों में बैठ
कुछ खाते नमकीन पकौड़े
कामों में पर व्यस्त हैं थोड़े
छत किसी की देख टपकती
आँसू बहुत बहाते बादल
अब तो सारे ताल-तलैया
भर गए खूब बादल भैया
जाओ बादल , जाओ बादल
अगले बरस अब आओ बादल
अगले बरस अब आओ बादल ।।

हिंदी भाषा

हर वर्ष की भाँति इस वर्ष भी जुब्ली हिल्स पब्लिक स्कूल में 'हिंदी दिवस' बड़े ही हर्षोल्लास से मनाया गया। विद्यालय के विद्यार्थियों द्वारा हिंदी भाषा के महत्त्व को दर्शाते हुए मनमोहक गीत, नाटक एवं नृत्य आदि प्रस्तुत किए गए। कार्यक्रम का मुख्य आकर्षण 'नुक्कड़ नाटक' (लड़का-लड़की एक समान) जो कि लिंग संवेदनशीलता पर आधारित था। इस अवसर पर विद्यालय की प्रधानाध्यापिका श्रीमती वरलक्ष्मी जी ने सभी को 'हिंदी दिवस' की शुभकामनाएँ देते हुए नारा लगवाया - " देश की आशा हिंदी भाषा। "

తెలుగు విభాగం

మధురమైన క్షణాలు
పాఠశాలలో నేను గడిపిన నిమిషాలు
మరుపురాని వసంతాలు
తొమ్మిది సంవత్సరాల ప్రాయం
పోటీలో విజయం సాధించిన తరుణం
తల్లి దండ్రుల కళ్ళలో సుడులు తిరిగిన ఆనందం
మరచిపోలేను ప్రతిక్షణం
ఇదంతా మా పాఠశాల కల్పించిన గొప్ప వరం
మా పాఠశాలను గుర్తుంచుకుంటా క్షణ క్షణం...
కె. యమ్. ధీత్యా, VI-C

అందమైన క్షణాలు
అందుకోలేని దూరాలుగా
మరువలేని జ్ఞాపకాలుగా
ఆడిన ఆటలు ముద్దుగా
చేసిన అల్లరి సద్దుగా
ఓ నేస్తమా! తిరిగి రాదు ఈ సమయం
యమ్. షర్మిళ, IX-B

అనంత విజ్ఞాన సమాహారం
సాంకేతికతతో రూపుదిద్దుకున్న చంద్రహారం
విద్యార్థుల మదిలో జ్ఞాన హారం
వీటన్నింటికీ మా జూబ్లీహిల్స్ పబ్లిక్ స్కూలే శ్రీకారం
ఇవన్నీ మా చక్కని భవితకు సోపానం
యన్. స్పందన, IX-D

చెరిగిపోని వసంతోత్సవాలు
పాఠశాల జ్ఞాపకాలు
మంచి మార్కులకై ఆరాటాలు
సృజనాత్మకతకై ఆర్భాటాలు
మిత్రుల సహాయ, సహకారాలు
దిశానిర్దేశం చేసిన ఉపాధ్యాయులకు వందనాలు
సాత్విక్, VI-F

తోవ తెలియని గమ్యానికి
దిక్సూచిలా మార్గం చూపి
అడుగడుచు ప్రోత్సాహమనే బహుమతులిచ్చి
పోరాటతత్త్వం నేర్పి
తెలిసిన జ్ఞానమంతా పంచి
వెలుగు బాటను చూపించిన ఉపాధ్యాయులను
మరువలేను
కె. త్రిభువన్, VIII-D

ఏడుస్తూ పయనమయ్యాను బడికి
చాక్లెట్ల ఆశపెట్టి నెట్టారు యు.కె.జికి
తప్పడు పనులు చేసి తిన్నానెన్నో తిట్లు
మంచి పనులు చేస్తే కొట్టారెన్నో చప్పట్లు
రేపు పరీక్షలనగా పుస్తకాలతో పట్టాము కుస్తీలు
కలం పట్టుకొని, కాపీ కొట్టక రాశామెన్నో పరీక్షలు
వదలలేక వదులుతున్నాం పాఠశాలను.
మధుర జ్ఞాపకాలెన్నో పదిలపరుచుకొని.
జె. వేంకట ఆదిత్య, X-B

జూబ్లీహిల్స్ పబ్లిక్ స్కూల్ నాకొక దేవాలయం.
ఈ దేవాలయంలో చదవడం నా అదృష్టం.
పది సంవత్సరాల క్రితం మొక్కగా ఈ నందనవనంలో
ప్రవేశించాను.

ఈ ప్రయాణంలో నేను పొందిన అనుభూతులెన్నో,
నేర్చుకున్న పాఠాలెన్నో మాటల్లో వర్ణించలేను. చదువే
కాదు ఎంత ఎత్తుకు ఎదిగినా ఒదిగి ఉండాలని మా
ఉపాధ్యాయులు చూపిన మార్గదర్శకత్వం, స్నేహితులతో
పంచుకున్న ఆనంద క్షణాలు, చేసిన అల్లరి అపురూపం.

నిరంతరం నా హృదయాంతరాళాల్లో నిలిచే ఆ తీపి
అనుభూతిని మాటల్లో వర్ణించలేను.

యమ్. గ్రీష్మ, X-C

తేనెపట్టులా ఉన్న నా ఎదలో
విచ్చుకుంటున్న జ్ఞాపకాల వనం
అనురాగపు దారంతో అల్లుకున్న హృదయం
ఇవన్నీ పాఠశాల మధుర స్మృతుల సమాహారం
అనుకోకుండా వేశాను తప్పటడుగులు
ఎంత అనుభూతిని ఇచ్చాయో ఆ చేష్టలు
నాడు తెలియక చేశాను ఇష్టానుసారం
నేడు అదే నాకొక గుణపాఠం
నా ఉచ్చాస్య నిశ్వాసలు
ఎడారిలాంటి నా జీవితాన్ని పరికిస్తుంటే
అనుభవ పూర్వకమైన చేదుజ్ఞాపకాలతో
నా చిరునవ్వులు నిలిచి పోయాయి ఎండమావుల్లా
తెచ్చుకున్న సంతోషమే వెలుతురుగా
వింత భావాలే నీరుగా
తీయని తుఫానులో మునిగిన మనస్సు
రంగురంగుల ఇంద్రధనుస్సులా రూపుదిద్దుకుంది
చందమామలా వెలుగుతున్న జ్ఞాపకాలు
మబ్బుల్లా పయనిస్తున్నాయి గతాలు
లెక్కలు చెప్పవేం అని అడిగితే
అంతులేని ఆకాశంలో చుక్కలవలె.

జి. నేహాసాయి, IX-E

బతకాలంటే గుక్కెడు నీరూ, గుప్పెడు మెతుకులూ కావాలి.
వీటితో పాటు ఇంకేం కావాలి ?
అందమైన మధుర జ్ఞాపకాలు
ఈ జ్ఞాపకాలు వేసవిలో చల్లని చినుకుల్లా ఉండాలి
వెన్నెల వేళ మల్లెల వానలా ఉండాలి
అమ్మ అనురాగంలా ఉండాలి
పసిపాప చిరునవ్వులా ఉండాలి
వీటన్నింటినీ కల్పించిన మా పాఠశాల కలకాలం బాగుండాలి.

యమ్. సంజన, IX-A

నా హృదయంలో మధురస్మృతులు ఉప్పొంగి
పోయాయి. నా చేతిలో అక్షరాలు రూపుదిద్దుకున్నాయి.
అవి మీతో పంచుకోవాలని కోరిక కలిగింది. నేను
ఎనిమిదవ తరగతిలో ఈ పాఠశాలలో చేరాను.
వచ్చిన ఏడాదిలోనే నా పట్టుదలను చూసి వార్షికో
త్సవంలో భాగంగా తెలుగు నాటకంలో శ్రీ
కృష్ణదేవరాయలుగా నన్ను ఎంచుకున్నారు.
ఆ నాటకం నాకు ఎంతగానో పేరు తెచ్చింది.
తరువాతి సంవత్సరం నేను, మా స్నేహితులు
భయపడుతూ అర్థ సంవత్సర పరీక్షలు రాశాము.
కొన్ని రోజులు గడిచాక మళ్ళీ వార్షికోత్సవంలో
నటించే అవకాశం వచ్చింది. ఈ సారి డైలాగులు
ఎక్కవగా ఉండే యమధర్మరాజు పాత్ర. నాటకం
మొదలైంది. నా డైలాగ్స్ కి చప్పట్లు కొట్టని వారు లేరు.
ఆరోజు ప్రేక్షకులు కొట్టిన చప్పట్లకు నేను పొందిన
ఆనందం ఇప్పటికీ గుర్తుకు వచ్చి ఎంతో ఆనందాన్ని
పొందాను. నన్ను ఇంతలా ప్రోత్సహించిన మా
ఉపాధ్యాయులను, మా పాఠశాలను మరువలేను.

పి. భరత్ చరణ్, IX-E

నేను నా స్నేహితులతో కలిసి నవంబర్ 14వ తేదీన
శిల్పారామం, జూపార్క్ వెళ్ళాము. అక్కడ రక రకాల
శిల్పాలు, పక్షులను చూసి ఎంతో ఆనందించాము.
మా స్నేహితులతో కలిసి భోజనం చేశాము. ఎంతో సరదాగా
గడిపాము. ఈ మధుర స్మృతులన్నీ మా పాఠశాల మాకు
కల్పించిన గొప్పవరం.

ఆర్. శ్రీనివాస్, V-C.
