## Teachers' Day Celebrations

Jubilee Hills Public School, Hyderabad celebrated Teacher's Day on 5th September, 2024 with great fervour and enthusiasm. These celebrations were a vibrant testament to the integral role that teachers play in shaping the future of their students and the community.

The day's festivities began with a special assembly in the school auditorium. Students from various grades presented a series of performances that included songs, dances and skits. These performances, carefully curated by the Student Council, were a lively and colourful expression of their love and admiration towards the teachers.

## Ganesh Chaturthi Celebrations

Jubilee Hills Public School, Hyderabad, embraced the vibrant festival of Ganesh Chaturthi with a series of colourful and engaging activities that highlighted the cultural richness of this auspicious occasion.

The festival, which honours Lord Ganesha, the elephant-headed deity symbolizing wisdom and prosperity, was marked by a variety of performances by students showcasing traditional dances, songs, and skits related to Ganesh Chaturthi. The atmosphere was filled with joy as students chanted devotional songs and danced to traditional beats.

The celebrations were a resounding success which not only enriched students' understanding of traditional practices but also fostered a sense of community and shared celebration.

## Hindi Diwas Celebrations

Hindi Diwas was celebrated with great enthusiasm and cultural fervour on 12th September, 2024 marking a day dedicated to honouring the Hindi language and its significant role in India's linguistic heritage. Students from various grades took part in poetry recitations and skits that showcased their proficiency and creativity in Hindi. The melodious performances, which included popular Hindi songs, were a hit among the audience and added to the festive atmosphere. Several other engaging performances also highlighted the beauty and versatility of the language. Students also promised to devote 100 hours per year to keep their surroundings clean through the Swachhta pledge. The school's vibrant celebrations were a testament to its commitment to preserving and promoting linguistic diversity.

## Financial Literacy Workshop

The workshop for financial literacy was conducted on 9th September 2024. The speaker for the day was Ms. Tanya Sangma who is currently posted in Hyderabad in Reserve Bank of India (RBI). She shared her inspiring journey as an officer who has joined in 2018, her first posting being in Guwahati. The session began with a question and answer round. Students who answered the questions were rewarded by her which grabbed the interest of the students in the session and were excited to participate. A gist was given on RBI's infrastructure and functioning – 27 offices, 6 sub offices all over the country. The students were thrilled to learn about the fascinating process of minting money, its monetary policies and different foreign exchange policies.

Various rounds of questions were asked to keep the students engaged. Information was given on interesting topics like Banker's bank, Monetary policy committee, inflation target fixed by the committee, life cycle of the currency notes, FEMA act, Vidya Lakshmi scheme, RBI retail direct website to invest in government securities without middle men, Bank Ombudsman act and Rule 72 on investment.

In conclusion, the workshop was a huge success, having reached the right audience and truly motivated those seeking career in banking finance.

## Debate Competition

To empower our students with 21st century skills of communication and to win accolades in the competitions at the state, National and International level, we train our students through internal competitions.

On the 6th of September, 2024 the students of class 10 came together to discuss and debate on the topic. "Technology makes us distant from one- another."

Ms. P. Kanchana Valli, the Principal and Ms. M. Varalakshmi, the Director moderated the event, witnessing the heated discussion. Each section put forward their best candidates to speak for and against the topic. The students of class 10 were present to support their friends and add charm to the event. The debate lasted for over an hour and ended with a speech from the Director who was also the moderator of the event, expressing her thoughts on the topic and appreciating the student's efforts. The winners were awarded for their hard work ending the day on an insightful note.

The Proud Winners

## Field Trip - Birla Planetarium and Science Museum

As a part of extended education Jubilee Hills Public School, Hyderabad organized an educational field trip to the "Birla Planetarium" and "Science Museum" for Classes IV & VI students in August, 2024. The trip aimed to provide children with a hands-on experience of the Golden Era. The children were thrilled to have a day just for them.

The highlight of the visit was the planetarium show titled "Journey Through the Universe." The auditorium was pitch black and all of a sudden, the dome was lit by small sparkling stars. The children were wonderstruck to see the replica of the Universe. The show covered topics such as the solar system, constellations, and cosmic phenomena. It was a spectacular show. After the show, the enthusiastic students were seen indulging in discussions with each other. It showcased their understanding of astronomy.

The next attraction of the visit was the display of large "Dinosaur" in the Dinosaurium. The exhibits were a myth buster to the children who thought that Dinosaurs are only imaginary.

Archaeology was another important section for the enthusiastic children at Birla Science Museum wherein a collection of unique archaeological objects, both excavated and collected were exhibited. The museum's interior was divided into several sections, each dedicated to different branches of science. The interactive exhibits allowed students to delve into experiential for better understanding. The section dedicated to the evolution of life provided insights into the history of life on Earth. Children learned about the process of evolution and the diversity of species.

They got to see a variety of souvenirs from the Stone Age to the modern age of mankind. They also saw the skeleton of Kotasaurus, as it majestically stood surrounded by various other fossils from its time.

The combination of interactive exhibits, informative displays, and the planetarium show provided an immersive experiential learning environment which helped the inquisitive minds to enhance their knowledge on the concepts that always wondered

## Field Trip - The Footwear Design and Development Institute (FDDI)

The class 10 field trip was organized to visit the Footwear Design and Development Institute (FDDI), Hyderabad, on 31st August 2024. The institute is a part of Ministry of Commerce and Industry. The importance of FDDI was recognized by FDDI Act, 2017. The whole campus was updated with latest cutting-edge technology. The abstract paintings on the walls and the artwork put up on the walls showcased the creativity of the students of the institution. Achievements of the faculty and alumni are also displayed. A draping workshop was conducted by the senior faculty of Fashion Design department. The students sketched the dress they wanted to design. They were given hand on experience in designing bags and Fashion designing, draping too. Students worked with old cloths, basic stationary items to design cloths, bags in a creative manner.

The students also visited the lab where metal and wooden products are designed and manufactured.

They were given an insight on Footwear designing. The tour of the COE building was a knowledge delving on machinery. It included the CAD/CAM design studio (pattern and laser cutting), Advance printing studio (digital fabric printing), Product development lab (computerized embroidery machine, cup molding machine and quilting machine) and lastly the Knitting studio.

The Educational trip was indeed a learning experience for the students of class 10.

## Field Trip – NIRD (National Institute of Rural Development)

Academic field trips provide students with hands-on learning experiences and exposure to real-world applications of classroom knowledge. JHPS organised an educational field trip to National Institute of Rural Development for classes V & VII in August, 2024.

This learning helped the students to understand how sustainable development helps to cater a positive and healthy lifestyle. How an entrepreneur can start eco-friendly small scale business by manufacturing products like soap, oil, shampoo, honey, medicinal herbs, and household cleaners for the public. Such products do not cause any harm to the human kind since they are chemical free and do not use harmful fertilisers.

The main highlight was 'Sustainable Development Projects' which were demonstrated to the students. To name a few, that caught the rapt attention of students are:

- ***'Portable Biogas Plant', producing cooking gas from kitchen waste***
- ***Sewage linked Bio gas plant***
- ***Projects on wastage of electricity***

They got an opportunity to learn how handmade paper is made from waste material, natural dyeing of yarn, vermicomposting of organic manure and herbal products. Students saw different types of dwellings like bamboo house, mud house and houses with different types of roofs.

Students really enjoyed watching the different processes and they made a note of each to share their knowledge with their friends. It also helped them in expanding horizons while building the curriculum in a meaningful and exciting way. It also inspired students and teachers to gain knowledge.

## Field Trip - Nehru Zoological Park and Sudha Car Museum

Jubilee Hills Public school, Hyderabad Pre-primary organized an exciting field trip for Nursery, LKG and UKG students on August 9th, 2024 to Nehru Zoological Park and Sudha Car Museum.

The excursion to Zoo proved to be an enriching experience for the children. During their visit, they observed a diverse array of animals, birds, and lush greenery. The children gained insights into the habitats of various species. They demonstrated their cognitive abilities by recalling information learned in the classroom, enthusiastically discussing the skin colors of the animals and the number of different species they encountered. Teachers facilitated the learning process by introducing the children to new animal names. Additionally, the students discovered that zoos and aquariums offer safe habitats, medical care, and a nurturing environment for the animals.

Sudha Car Museum, a fun adventure for kids. An experience that left the children both thrilled and educated. The quirky designs spark imagination and creativity, showing how art and engineering can come together.

Students love the magical experience of seeing cars that look like toys come to life. The cars shaped like cupcakes, pencils, shoes, Ram Mandir, computer, hand bag, swan, house and many more. Children are likely to be mesmerized by the creativity on display. The museum is colourful and full of photo opportunities, perfect for capturing memories. A visit to The Sudha Car Museum is not just about looking at cars it's about inspiring students to think creativity and explore the possibilities of design and innovation. It also encourages imaginative thinking and connects classroom learning with real-world application.
